Hello Graduate Students,

If you are interested in any of the opportunities below (or just about any other fellowship) and plan to work on the application over the summer, consider joining our Summer Fellowship Application Development Program. The program provides advice, deadlines, and feedback on your drafts. Learn more about the program here: https://grad.arizona.edu/ofce/summer-fellowship-application-development-program

Shelley and Alex

* Indicates U.S. citizenship or permanent residence not required

Announcements

- DAAD – German Academic Exchange Service Study Scholarship and Research Fellowship Information Session*
- Fulbright U.S. Student Information Sessions
- National Science Foundation Graduate Research Fellowship (NSF GRFP) Information Sessions
- Summer Fellowship Application Development Program*
- Writing Efficiency Sessions (WES)*
- Writing Skills Improvement Program (WSIP) Graduate Writing Institute*

General Funding Opportunities

- American Educational Research Association (AERA) Dissertation Grants*
- American Indian Graduate Center Funding Opportunities
- German Federal Environmental Foundation/ Deutsche Bundesstiftung Umwelt (DBU) – Doctoral Scholarship Program*
- Hispanic Association of Colleges and Universities (HACU) National Internship Program (HNIP)
- International Foundation for Ethical (non-animal) Research Fellowship Program*
- Korean American Scholarship Foundation*
- National Water Research Institute (NWRI) Fellowship Program*
- Southwest Airlines ¡Lánzate!/Take Off! Higher Education Travel Program
- University Corporation for Atmospheric Research (UCAR) Earth System Science, Diversity & Inclusion, and Public Policy Fellowships*
• University Warwick Institute for Global Pandemic Planning Mathematical Epidemiology, Public Health, and Behavioural Science Scholarships*

**Arts, Humanities, & Social Sciences**

• Academy of Motion Picture Arts and Sciences Student Academy Awards (SAA)*
• Acton Institute Calihan Academic Grants – Theology and a Free Society*
• Bemis Center for Contemporary Arts Curator-in-Residence Program*
• Cuban Research Institute (CRI) Diaz-Avala Library Travel Grants*
• Harpo Foundation Grants for Visual Artists
• MacDowell Artist Colony Fellowship for Artists in Many Disciplines*
• National Women’s Studies Association (NWSA) Graduate Scholarship and Trans/Gender-Variant Caucus Award
• Robert Novak Journalism Fellowship Program
• Russell Sage Foundation Small Grants and Summer Program for the improvement of social and living conditions in the United States

**Science & Engineering**

• American Academy of Forensic Sciences (AAFS) Jan S. Bashinski Grant
• American Speech-Language-Hearing Foundation (ASHFoundation) Grants, Scholarships, and Awards
• Audio Engineering Society Educational Foundation (AESEF) Graduate Studies Grants
• National Health Service Corps Scholarship Program (NHSC SP) (graduate and postdoctoral)
• Raptor Research Foundation (RRF) Amadon Grant
• US Department of Energy (DOE) Office of Science (OS) Graduate Student Research (SCGSR) Program
• Women's International Network of Utility Professionals (WiNUP) Fellowships

**Postdoctoral Opportunities**

• American Council of Learned Societies (SCLS) Leading Edge Fellowships for Justice and Equity
• Experimental Psychology Society (EPS) Postdoctoral Grants for Study Visits*
• Helen Hay Whitney Foundation (HHWF) Postdoctoral Research in Biomedical Sciences
• Huntington's Disease Society of America (HDSA) HD Human Biology Project
• James S. McDonnell Foundation (JSMF) Postdoctoral Fellowship Awards (dynamic and multiscale systems)
• Los Alamos National Laboratory (LANL) Postdoctoral Research Associate Appointments
• Morton Cure Paralysis Fund (MCPF) Research Grants*
• NSF Mathematical and Physical Sciences Ascending Postdoctoral Research Fellowships
• NSF Office of Polar Programs Postdoctoral Research Fellowships (OPP-PRF)
• The National Academies of Sciences Engineering Medicine Army Research Laboratory (ARL) Distinguished Postdoctoral Fellowship*
• University of Arizona Postdoctoral Research Associate, Obstetrics and Gynecology (College of Medicine-Phoenix)*
• Wenner-Gren Foundation for Anthropological Research Post-Ph.D. Research Grants*

**Announcements**

**DAAD – German Academic Exchange Service Study Scholarship and Research Fellowship Information Session**

DAAD Fellowships provide support for study in Germany. The following opportunities through DAAD are generally most relevant for graduate students: study scholarships (provide an opportunity to do independent study in Germany or to complete a full Master's degree), research grants (primarily to do doctoral research). As a partner university, DAAD encourages the UA to select one priority candidate. Priority candidates from partner universities receive preferential status in the general fellowship competitions and have a considerably higher likelihood of being selected. The information session will cover the basics of the study scholarship and research scholarships as well as the priority candidacy process.

- **RSVP:** [https://grad.arizona.edu/ofce/daad-information-session](https://grad.arizona.edu/ofce/daad-information-session)
- **Info Session Date:** Tuesday, April 27 from 12:30PM - 1:30PM Arizona Time on Zoom. The link to the zoom meeting will be shared after you register.
- **Citizenship:** See opportunity for eligibility.
- **Opportunity Website:** [https://www.daad.org/](https://www.daad.org/)
- **Questions:** Contact Shelley Hawthorne Smith shellh@email.arizona.edu

**Fulbright U.S. Student Fulbright Information Sessions**

The Fulbright U.S. Student Program offers research, study, and teaching opportunities in over 140 countries to U.S. Citizens who are Rising seniors, graduate students & recent alumni.

- Fulbright Week, April 5-9, 2021: visit the website for the full calendar of events: [https://fulbright.arizona.edu](https://fulbright.arizona.edu).
- Information Sessions:
  - April 14, 2021 from 5:00 – 6:00, register: [https://bit.ly/2QGcZLc](https://bit.ly/2QGcZLc)

April 27, 2021 from 1:00 – 2:00, group Presentation Session for Hispanic-Serving Institutions from 1:00 - 2:00 pm MST hosted by Fulbright IIE with a special breakout session for information on the UAriziana campus application process and support available. Register: [https://bit.ly/2QJWaPv](https://bit.ly/2QJWaPv)

- [https://honors.arizona.edu/oncs](https://honors.arizona.edu/oncs)

**National Science Foundation Graduate Research Fellowship (NSF GRFP) Information Sessions**

The purpose of the NSF GRFP is to help ensure the vitality and diversity of the scientific and engineering workforce in the United States. The program is a wonderful source of funding for graduate students – providing awardees with $34,000 annually for three years, as well as additional benefits. These information sessions will help you get started on your application.

- **RSVP:** [https://grad.arizona.edu/ofce/nsf-grfp-information-sessions](https://grad.arizona.edu/ofce/nsf-grfp-information-sessions)
- **Info Session Dates:** Thursday, April 15 from 9:30AM - 10:30AM Arizona Time and Tuesday, April 20 from 11:00AM - 12:00PM Arizona Time
- **Citizenship:** U.S. citizens, nationals, or permanent residents. Please review the full eligibility requirements.
- **Opportunity Website:** [http://www.nsfgrfp.org/](http://www.nsfgrfp.org/)
- **Questions:** Contact Shelley Hawthorne Smith shellh@email.arizona.edu

**Summer Fellowship Application Development Program**

If you plan to work on a fellowship application for graduate study over the summer, we can help. The Summer Fellowship Application Support Program provides advice, deadlines, and feedback on your drafts.

- **Deadlines:** April 26, 2021 (priority application deadline); May 18, 2021 (additional deadline)
- **Citizenship:** There are no citizenship requirements to participate in the program. However, please review the full eligibility requirements of the funding opportunity.
- **Program website:** [https://grad.arizona.edu/ofce/summer-fellowship-application-support-program](https://grad.arizona.edu/ofce/summer-fellowship-application-support-program)
- **Questions:** Contact Shelley Hawthorne Smith shellh@email.arizona.edu or Danielle Barefoot dblalock@arizona.edu

**Writing Efficiency Sessions (WES)**

If you are working on an intensive writing project like a dissertation, thesis, journal article, or grant proposal and you would like to increase your writing productivity, consider joining Writing Efficiency Sessions. WES is hosted by the Graduate Center,
Postdoctoral Affairs, and the Think Tank Writing Center. They are free to attend and can help you move ahead on your writing projects. The atmosphere is a structured, yet laid back, group writing space. You may attend an entire session or part of each three-hour session. The first two hours of each session consist of timed writing sprints with short breaks followed by a short discussion aimed at helping you improve your writing productivity. The last hour is unstructured writing time. Writing Consultants are available for consultation during the last half of the sessions.

- **Register:** Wednesday sessions (https://uarizona.co1.qualtrics.com/jfe/form/SV_6gR8celia28pWh8); Friday sessions (https://uarizona.co1.qualtrics.com/jfe/form/SV_6gR8celia28pWh8)
- **Deadline:** There is no deadline to participate in WES sessions, but you must register in order to gain access to the zoom meeting information.
- **Weekly Dates/Times:** Wednesdays 2-5pm Arizona Time; Fridays 9am-noon Arizona Time
- **Citizenship:** Unrestricted
- **Website:** https://gradcenter.arizona.edu/writing-support/writing-efficiency-sessions
- **Questions:** Email gradcenter@email.arizona.edu

**Writing Skills Improvement Program (WSIP) Graduate Writing Institute**
The Writing Skills Improvement Program here at the University of Arizona will facilitate the Graduate Writing Institute (GWI) in June 2021. The GWI is a 3-week writing-intensive program intended for graduate students working on advanced scholarly documents, including proposals, articles, and thesis and dissertation chapters. The GWI has been held each summer for several years and has supported numerous students successfully meet their writing goals. Our instructional focus is on developing academic writing skills, productivity, and proficiency for students across all disciplines. The GWI will take place from June 7-23, Monday through Friday (hours will vary depending on tutoring schedule). The fee is $175 per student for University of Arizona graduate students. The GWI will be held entirely online again this year. Accepted students will participate in writing workshops, writing boot camps, individual tutoring, and small group tutoring.

- **Deadline:** April 16, 2021
- **Citizenship:** Unrestricted
- **Program website:** https://www.wsip.arizona.edu/
- **Questions:** Contact Dr. Andrea Hernandez Holm at ahholm@email.arizona.edu

**General Funding Opportunities**

**American Educational Research Association (AERA) Dissertation Grants**
With support from the National Science Foundation (NSF), the AERA Grants Program announces its Dissertation Grants competition. The aim of the program is to advance fundamental knowledge of relevance to STEM policy, foster significant science using education data, and build research capacity in education and learning. The program
seeks to stimulate research on U.S. education issues using data from the large-scale, national and international data sets supported by the National Center for Education Statistics (NCES), NSF, and other federal agencies, and to increase the number of education researchers using these data sets. The program supports research projects that are quantitative in nature, include the analysis of existing data from NCES, NSF or other federal agencies, and have U.S. education policy relevance.

- **Deadline:** May 12, 2021
- **Citizenship:** Unrestricted
- **Website:** [http://www.aera.net/Professional-Opportunities-Funding/AERA-Funding-Opportunities/Grants-Program/Dissertation-Grants](http://www.aera.net/Professional-Opportunities-Funding/AERA-Funding-Opportunities/Grants-Program/Dissertation-Grants)

**American Indian Graduate Center Funding Opportunities**
American Indian Graduate Center offers a variety of funding opportunities for graduate students including MA, MS, PhD, STEM, Medical, Law, MBA, and other professional degrees. There are several funding opportunities, including the Empowering Scholars Initiative: AIGC Access Scholarships, REDW Scholarship, Scholarships and Professional Training Opportunities, Special Higher Education Program, and more!

- **Deadline:** Varies by opportunity
- **Citizenship:** See opportunity
- **Website:** [https://www.aigcs.org/scholarships-fellowships/graduate-students/](https://www.aigcs.org/scholarships-fellowships/graduate-students/)

**German Federal Environmental Foundation/ Deutsche Bundesstiftung Umwelt (DBU) – Doctoral Scholarship Program**
The DBU grants dissertation fellowships each year, for individuals in all disciplines, for advanced research work in the field of environmental protection. The work has to be done mainly in Germany, with a clear reference to the German environmental situation. The chosen topic is expected to be of high relevance and should contribute to solving problems in environmental and conservation efforts. Generally, all environmental issues are welcome who meet the above-mentioned criteria, i.e. in addition to the natural sciences and engineering, also applications from the social sciences, humanities, economics and law. Interdisciplinary topics that support a sustainable development, are especially welcome. The complexity of environmental problems requires interdisciplinary collaboration between different scientific disciplines. DBU expects good German skills from foreign applicants to allow their integration into the DBU scholars’ network.

- **Deadline:** June 15
- **Citizenship:** Unspecified
- **Website:** [https://www.dbu.de/2821.html](https://www.dbu.de/2821.html)

**Hispanic Association of Colleges and Universities (HACU) National Internship Program (HNIP)**
Whether you are a student looking for an internship or a federal agency or corporation looking for an intern, we feel confident that we can help you in your pursuit. We are
always in search of the best and the brightest to fill our many internship opportunities. We are also looking to partner with government and corporate sector organizations interested in developing the next generation of dedicated public servants and business leaders. Our website contains information about our mission, upcoming program dates and deadlines, and ideas about how to get involved with our organization. Thank you for your interest in the HACU National Internship Program!

- **Deadline:** June 4, 2021 (Fall 2021 Session deadline)
- **Citizenship:** Applicants must be authorized or eligible to work in the United States by law (HACU participates in E-verify).
- **Website:** [https://www.hacu.net/hacu/HNIP.asp](https://www.hacu.net/hacu/HNIP.asp)

**International Foundation for Ethical (non-animal) Research Fellowship Program**

The purpose of IFER's Fellowship Program is to provide financial incentives to graduate students in science that encourage them at the earliest stages of their career to integrate innovation and discovery with ethics and respect for animals. Fellowships are awarded to those candidates whose program of study shows the greatest potential to replace the use of animals in science. Graduate Fellowships are awarded to develop alternatives to the use of animals in research, testing and education are open to students enrolled in Master's and Ph.D. programs in the sciences, and human or veterinary medicine. Fellowships will also be considered for graduate students in other fields, such as education, psychology, humanities, journalism, and the law, for projects that show promise to increase public awareness or to promote changes in the legal system or public policy regarding the use of animals in research, testing, and education. Our fellowships provide up to $12,500 annually in stipendiary support and supplies per year. The fellowships are renewable annually for up to three years. Continued funding is dependent on student progress and availability of funds.

- **Deadline:** April 30, 2021
- **Citizenship:** Unspecified
- **Website:** [http://www.ifer.org/available-fellowships.html](http://www.ifer.org/available-fellowships.html)

**Korean American Scholarship Foundation**

The Korean American Scholarship Foundation (KASF) is a non-profit, volunteer-managed organization established to help meet the financial needs of Korean American students seeking higher education. KASF scholarships (which range from $500 to $5,000) are offered to the qualified Korea American students (including foreign students from Korea). All applicants must be enrolled in a full-time program in the U.S during the scholarship application year. If extra funds are available, other students (non-Koreans) may qualify for scholarships. Specifically, descendants of American veterans served during the Korean War may qualify for scholarships (applicable to selective regions).

- **Deadline:** June 30, 2021
• **Citizenship:** Students with a Korean heritage studying in the United States regardless of citizenship status (including Korean Nationals). If extra funds are available, other students (non-Korean) may qualify for some scholarships.

• **Website:** [https://www.kasf.org/scholarships/](https://www.kasf.org/scholarships/)

### National Water Research Institute (NWRI) Fellowship Program
The NWRI Fellowship program awards funds to graduate students who are conducting water research in the United States. Multiple fellowships are offered, including:

1. NWRI Member Agency Graduate Fellowship ($5,000 award): Research must be related to developing and/or enhancing drinking water supplies and water resources in general;
2. NWRI-BioLargo Graduate Fellowship ($5,000 award): Research must be related to technical and scientific aspects of advanced water and wastewater treatments; and
3. NWRI-AMTA Graduate Fellowships for Membrane Technology ($10,000 award): Research must be related to the advancement of membrane technology in the water, wastewater, or water reuse industries, and must be consistent with AMTA’s mission to solve water supply and quality issues through the widespread application of membrane technology. This fellowship program is open to all graduate students who research water, whether that research is in science, technology, policy, or economics—and beyond.

• **Deadline:** April 30, 2021

• **Citizenship:** Unrestricted

• **Website:** [https://www.nwri-usa.org/2020-2021-nwri-fellows](https://www.nwri-usa.org/2020-2021-nwri-fellows)

### Southwest Airlines ¡Lánzate!/Take Off! Higher Education Travel Program
The 17th Annual ¡Lánzate!/Take Off! Higher Education Travel Award Program is sponsored by the Hispanic Association of Colleges and Universities (HACU) in conjunction with Southwest Airlines. Through this national education initiative, HACU and Southwest Airlines will award flight e-passes to currently enrolled undergraduate and graduate students across the country who travel away from home to pursue a higher education and meet the eligibility criteria listed below. A selection committee consisting of national education advocates and community leaders will select the award recipients. Recipients will be awarded 8 (eight) one-way Southwest Airlines flight e-passes for the student to use when traveling to/from the college/university. The complimentary e-passes can be used for travel to any of the Southwest Airlines destinations in the continental United States as listed on [www.southwest.com](http://www.southwest.com).

• **Deadline:** April 30, 2021

• **Citizenship:** U.S. legal resident

• **Website:** [https://www.hacu.net/hacu/Lanzate.asp](https://www.hacu.net/hacu/Lanzate.asp)

### University Corporation for Atmospheric Research (UCAR) Earth System Science, Diversity & Inclusion, and Public Policy Fellowships
Each year UCAR selects three graduate students for fellowship tracks in Earth System Science, Diversity & Inclusion, and Public Policy. The Next Generation Fellowships offer
graduate students the opportunity to learn alongside leaders in their fields. Just as important, these programs bring an infusion of fresh ideas and new perspectives to our organization. Each two-year award provides financial support for graduate school and two summer visits. The UCAR Next Generation Fellowships offer three distinct tracks: Earth System Science, Diversity & Inclusion, and Public Policy. These fellowships are intended for graduate students holding an undergraduate degree in atmospheric science or a related Earth system science, such as one of the other geosciences, chemistry, computer science, engineering, environmental science, mathematics, meteorology, oceanography, physics, or social science.

- **Deadline:** June 15, 2021
- **Citizenship:** Unrestricted for all tracks except the Public Policy Track, which is open to U.S. citizens.
- **Website:** [https://www.ucar.edu/opportunities/fellowships/ucar-next-generation-fellowships](https://www.ucar.edu/opportunities/fellowships/ucar-next-generation-fellowships)

**University Warwick Institute for Global Pandemic Planning Mathematical Epidemiology, Public Health, and Behavioural Science Scholarships**

Through generous philanthropic donations, the University of Warwick’s newly created Institute for Global Pandemic Planning is offering scholarships for 30 new doctoral students for October 2021 entry across: Mathematical Epidemiology, Public Health, and Behavioural Science. The programme will include participation in relevant postgraduate taught courses and development or refining of a research project, followed by full time research to complete that project. We are recruiting our first Institute for Global Pandemic Planning cohort of doctoral students to start in October 2021 on a four year funded PhD programme. The programme will include participation in relevant postgraduate taught courses and development or refining of a research project, followed by full time research to complete that project. Each student will have supervision from academics in at least two of the main disciplines of the centre and across two university departments, with at least one supervisor from one of Warwick Medical School, Warwick Business School, or the Department of Mathematics. Students will share research space to support the cohort in learning together as well as benefitting from their main departmental affiliation. The studentships are funded by donors to cover a student stipend (currently £15,285 per year), university fees (national and international level), and a Research and Training Support Grant of £5,000. The Wellcome-Warwick Quantitative Biomedicine Programme will additionally support laboratory costs up to £10,000 for students involved in laboratory work.

- **Deadline:** Unspecified (It is recommended to apply as soon as possible!)
- **Citizenship:** Unrestricted
- **Website:** [https://warwick.ac.uk/fac/cross_fac/igpp/ab101](https://warwick.ac.uk/fac/cross_fac/igpp/ab101)

**Arts, Humanities, & Social Sciences**

**Academy of Motion Picture Arts and Sciences Student Academy Awards (SAA)**
The Student Academy Awards (SAA) recognizes and honors student filmmakers who demonstrate excellence in the creation of motion pictures. By awarding these outstanding achievements, the Academy strives to support and inspire emerging filmmakers and to foster growth and education in the art and science of motion pictures. Gold, Silver, and Bronze medals (which include cash grants of $5000, $3000 and $2000, respectively, and a trip to Los Angeles for SAA Week) may be awarded in each of the domestic categories as well as International Narrative.

- **Deadline:** June 1, 2021
- **Citizenship:** Unspecified
- **Website:** [https://www.oscars.org/saa/apply](https://www.oscars.org/saa/apply)

**Acton Institute Calihan Academic Grants**

The Calihan Academic Grants provide financial assistance to future scholars and religious leaders whose academic work shows outstanding potential. Graduate students and seminarians currently studying theology, philosophy, history, law, politics, economics, or related fields must demonstrate the potential to advance understanding in the relationship between theology and the principles of the free and virtuous society. Such principles include recognition of human dignity, the importance of the rule of law, limited government, religious liberty, and freedom in economic life.

- **Deadline:** July 15, 2021
- **Citizenship:** Unrestricted
- **Website:** [https://www.acton.org/calihan-academic-grants](https://www.acton.org/calihan-academic-grants)

**Bemis Center for Contemporary Arts Curator-in-Residence Program**

Established in 2017 as the first of its kind in Nebraska, Bemis Center's Curator-in-Residence Program provides national curators the opportunity to participate in the Bemis Residency Program, serve as a professional resource to Bemis artists-in-residence and the Greater Omaha arts community, and organize exhibitions and public programs at Bemis Center. The Curator-in-Residence receives a generous-sized, private live/work studio at Bemis and has 24-hour access to extensive installation and production spaces. Time is independent and self-driven and can be used for scholarly research, developing projects outside of Bemis, and establishing professional relationships with local and regional artists and arts professionals. During the residency, curators will work closely with Bemis’s exhibitions, marketing, and development teams to organize an exhibition and related public programs to occur after the residency period ends. The selected Curator-in-Residence will receive $36,000, which includes a monthly residency stipend for 18 months, studio visit honorarium, a travel/research allowance, a curatorial honorarium, and a relocation allowance reimbursable up to $1,500.

- **Deadline:** May 14, 2021
- **Citizenship:** Unrestricted
- **Website:** [https://www.bemiscenter.org/apply](https://www.bemiscenter.org/apply)

**Cuban Research Institute (CRI) Diaz-Ayala Library Travel Grants**
Every year, the Cuban Research Institute (CRI), the Kimberly Green Latin American and Caribbean Center (LACC), and Florida International University (FIU) Libraries offer the Díaz-Ayala Library Travel Grants to study the special collections related to Cuba and Cuban Americans. These awards are offered in honor of Cristóbal Díaz-Ayala, the prominent music collector and independent scholar who donated his Cuban and Latin American Popular Music Collection to FIU in 2001. The grants provide scholars and graduate students the opportunity to conduct research on Cuba and its diaspora at the FIU Green Library, thereby expanding access to the library's unique holdings and enhancing its value as a national resource. CRI, LACC, and FIU Libraries offer research stipends of up to $2,000 each to offset the costs of a minimum one-week stay (five working days) in Miami to use the collections. Two of the awards are given to U.S.-based scholars or graduate students, in accordance with the requirements of the U.S. Department of Education Title VI Grant. Those residing in other countries are encouraged to apply for the remaining grant.

- **Deadline:** April 16, 2021
- **Citizenship:** Unrestricted
- **Website:** [https://cri.fiu.edu/programs/library-travel-grants/](https://cri.fiu.edu/programs/library-travel-grants/)

**Harpo Foundation Grants for Visual Artists**

The Grants for Visual Artists award provides direct support to under-recognized artists 21 years or older. Applications are evaluated on the basis of the quality of the artist’s work, the potential to expand aesthetic inquiry, and its relationship to the foundation’s priority to provide support to visual artists who are under recognized by the field. Funding decisions are made by the Board of Directors, following review of applications by independent professional advisors. Awards are made of up to $10,000. Grants are made to support the development of artists’ work and a grantee may use their award to support any activity toward that purpose.

- **Deadline:** April 30, 2021
- **Citizenship:** U.S. citizen
- **Website:** [http://www.harpofoundation.org/apply/grants-for-visual-artists](http://www.harpofoundation.org/apply/grants-for-visual-artists)

**MacDowell Artist Colony Fellowship for Artists in Many Disciplines**

MacDowell provides time, space, and an inspiring environment to artists of exceptional talent. A MacDowell Fellowship, or residency, consists of exclusive use of a studio, accommodations, and three prepared meals a day for up to eight weeks. There are no residency fees. MacDowell accepts applications from artists working in the following disciplines: architecture, film/video arts, interdisciplinary arts, literature, music composition, theatre, and visual arts. MacDowell encourages applications from artists representing the widest possible range of perspectives and demographics, and welcomes artists engaging in the broadest spectrum of artistic practice and investigating an unlimited array of inquiries and concerns. To that end, emerging as well as established artists are invited to apply. Doctoral candidates who have finished all coursework may apply.
• **Deadline:** April 15, 2021 (Fall and Winter Spring 2021/2022 deadline); January 15, 2022 (Summer 2022 deadline)
• **Citizenship:** Unrestricted
• **Website:** [https://www.macdowellcolony.org/apply/application-guidelines](https://www.macdowellcolony.org/apply/application-guidelines)

**National Women's Studies Association (NWSA) Graduate Scholarship and Trans/Gender-Variant Caucus Award**

For the Graduate Scholarship, the NWSA will award $1,000 to a student who, in the fall of the year of the award, will be engaged in the research or writing stages of a Master's Thesis or Ph.D. Dissertation in the interdisciplinary field of women's studies. The purpose of the Trans/Gender-Variant Caucus Award is to recognize and support the work of scholars working in the emergent field of Trans Studies, broadly conceived. This $200 prize will be awarded to any caucus member whose paper was accepted for the 2020 annual conference and demonstrates potential to advance the field of trans studies. The recipient will be selected by a committee composed of the caucus chair and two caucus members. The paper will be selected based on the following criteria: originality of topic; quality of analysis and/or methods; potential to contribute to the field of trans studies; integrative analysis of race, class, gender, sexuality, dis/ability, empire, etc.; and clarity and organization. The application opens March 12, 2021.

• **Deadline:** June 22, 2021 (Graduate Scholarship); July 9, 2021 (Trans/Gender-Variant Caucus Award)
• **Citizenship:** Unspecified
• **Website:** [https://www.nwsa.org/page/prizes](https://www.nwsa.org/page/prizes)

**Robert Novak Journalism Fellowship Program**

Robert Novak Journalism Fellowships are intended to allow journalists early in their careers to pursue major reporting and research projects they would otherwise be unable to undertake. Applicants should have less than 10 years’ experience as professional journalists. Projects are expected to include some reporting component and to be broadly supportive of the principles of a free society. Each fellowship provides $30,000 in grant income and $5,000 expense assistance. The application form requires the following information and materials: Fellowship proposal; Published work samples; CV or resume; and Budget statement.

• **Deadline:** April 12, 2021
• **Citizenship:** U.S. citizen
• **Website:** [https://tfas.org/programs/robert-novak-journalism-fellowship/apply/](https://tfas.org/programs/robert-novak-journalism-fellowship/apply/)

**Russell Sage Foundation (RSF) Small Grants and Summer Program**

The Russell Sage Foundation (RSF) offers a variety of funding opportunities. We provide support primarily for analyzing data and writing up results, and particularly welcome innovative projects that collect or analyze new data to illuminate issues that are highly relevant to the foundation's funding priorities. RSF offers small grants to doctoral students at the dissertation stage and recent Ph.D. recipients to support
innovative, high-quality research and to encourage young investigators to enter developing interdisciplinary fields. Small grants are currently offered under the Foundation’s program in Behavioral Economics and its special initiative in Computational Social Science. (4) RSF occasionally holds targeted small grants competitions to analyze new datasets that investigators have made available to the wider research community. These targeted calls for proposals offer one-year small grants to doctoral students and early career researchers to analyze these new data. RSF hosts a conference a year after grants are made for grantees to present their results.

- **Deadline:** May 4, 2021 (Research Grants Letters of Inquiry due); June 24, 2021 (Visiting Scholar Fellowship Application due); Rolling (Small Grants due); April 29, 2021 (Targeted Competition Proposal due)
- **Citizenship:** See opportunity
- **Website:** [https://www.russellsage.org/how-to-apply](https://www.russellsage.org/how-to-apply)

### Science & Engineering

**American Academy of Forensic Sciences (AAFS) Jan S. Bashinski Grant**
The Jan S. Bashinski Criminalistics Graduate Thesis Assistance Grant is to provide graduate students with financial assistance to complete their thesis or independent research project as required for a graduate degree in Criminalistics/Forensic Sciences. The thesis or research project must be in the field of Criminalistics/Forensic Sciences. The Jan Grant award is $1,700. In addition, up to $1,300 is available for travel expenses to attend a future American Academy of Forensic Sciences (AAFS) Annual Scientific Meeting where the awardee has an approved platform presentation of the completed research. The funding must be used to complete the research project.

- **Deadline:** July 31
- **Citizenship:** Unspecified
- **Website:** [http://fsf.aafs.org/grants-scholarships-awards/jan-s-bashinski-grant/](http://fsf.aafs.org/grants-scholarships-awards/jan-s-bashinski-grant/)

**American Speech-Language-Hearing Foundation (ASHFoundation) Grants, Scholarships, and Awards**
The ASHFoundation Board Program Committee oversees the review process of all ASHFoundation (1) research grants, (2) scholarships, and (3) clinical achievement awards. (1) Clinical Research Grants aim to advance knowledge of treatment efficacy and assessment practices.

- **Deadline:** April 19, 2021 (Clinical Research Grants due); May 12, 2021 (New Century Scholars Doctoral Scholarship due) and May 19, 2021 (Graduate Student Scholarship due); April 12, 2021 (Clinical Achievement Awards due)
- **Citizenship:** See opportunity
- **Website:** [https://www.ashfoundation.org/apply/#Grants](https://www.ashfoundation.org/apply/#Grants)

**Audio Engineering Society Educational Foundation (AESEF) Graduate Studies Grants**
The Audio Engineering Society Educational Foundation (AESEF) is dedicated to encouraging the entry of talented students into the profession of audio engineering. Since its establishment in 1984, the Foundation has awarded grants for graduate studies to hundreds of exceptional applicants, many of whom have gone on to prominent and successful careers in the profession. Applicants of the AESEF Graduate Studies Grants are required to have met these criteria: The successful completion of an undergraduate degree program (typically four years) at a recognized college or university; A demonstrated commitment to audio engineering (or a related field) as a career choice; Acceptance or a pending application for graduate studies leading to a masters or higher degree, or an internationally recognized equivalent; and be a member in good standing of the Audio Engineering Society (any membership grade qualifies).

- **Deadline:** May 15
- **Citizenship:** Unspecified
- **Website:** [https://www.aes.org/education/foundation/](https://www.aes.org/education/foundation/)

**National Health Service Corps Scholarship Program (NHSC SP) (graduate and postdoctoral)**
The NHSC SP is administered by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS). The NHSC SP is a competitive federal program that awards scholarships to students pursuing eligible primary care health professions training leading to: A degree in medicine (allopathic or osteopathic); A degree in dentistry; or A postgraduate degree or postgraduate certificate from a school or program in nurse-midwifery education, physician assistant (PA) education, or nurse practitioner (NP) education specializing in adult medicine, family medicine, geriatrics, pediatrics, psychiatric-mental health, or women’s health. In return for scholarship awards, scholars commit to providing primary care health services to underserved communities. The program provides support to students who seek financial assistance to complete primary care health professions education. The NHSC SP pays for tuition and various other reasonable education-related costs and also provides a monthly stipend to assist with living expenses in exchange for a minimum of two (2) years of fulltime service.

- **Deadline:** May 11, 2021
- **Citizenship:** U.S. citizens and nationals
- **Website:** [https://nhsc.hrsa.gov/scholarships/overview.html](https://nhsc.hrsa.gov/scholarships/overview.html)

**Raptor Research Foundation (RRF) Amadon Grant**
The grant is designed to assist those working in the area of distribution and systematics (taxonomy) of raptors. Systematics covers a wide array of interests from molecular work to differential migration of populations from various geographic regions, for example. Distribution also covers a wide array of interests but should have something to do with where raptors live or why they are there. Up to $2,000 will be awarded to one applicant. The awardee will also receive waived page charges.

- **Deadline:** June 30
U.S. Department of Energy Office of Science Graduate Student Research (SCGSR) Program

The goal of the Office of Science Graduate Student Research (SCGSR) program is to prepare graduate students for science, technology, engineering, or mathematics (STEM) careers critically important to the DOE Office of Science mission, by providing graduate thesis research opportunities at DOE laboratories. The SCGSR program provides supplemental awards to outstanding U.S. graduate students (US citizens or lawful permanent residents) to pursue part of their graduate thesis research at a DOE laboratory/facility in areas that address scientific challenges central to the Office of Science mission. The research opportunity is expected to advance the graduate students’ overall doctoral thesis while providing access to the expertise, resources, and capabilities available at the DOE laboratories/facilities. The SCGSR program provides supplemental funds for graduate awardees to conduct part of their thesis research at a host DOE laboratory/facility in collaboration with a DOE laboratory scientist within a defined award period. Collaborating DOE Laboratory Scientists may be from any of the participating DOE national laboratories/facilities. The award period for the proposed research project at DOE laboratories/facilities may range from 3 to 12 consecutive months.

- **Deadline:** May 5, 2021
- **Citizenship:** U.S. citizens or permanent residents
- **Website:** [https://science.osti.gov/wdts/scgsr](https://science.osti.gov/wdts/scgsr)

Women's International Network of Utility Professionals (WiNUP) Fellowships

The Women's International Network of Utility Professionals (WiNUP) believes in doing all it can to help those within the industry with their educational pursuits. WiNUP currently has three fellowships available annually to females pursuing advanced degrees (beyond a bachelor’s degree), which will lead to careers in the utility industry or allied fields. Relevant fields must relate to a career in a utility related profession such as engineering, business administration, accounting, environmental sciences, communication, information technologies, and so on. Three fellowships are offered annually: the Julia Kiene Fellowship ($2,000 award), the Lyle Mamer Fellowship ($1,000 award), and the Louisan Mamer Fellowship ($500 award).

- **Deadline:** May 1
- **Citizenship:** Unspecified
- **Website:** [https://www.winup.org/content.aspx?page_id=22&club_id=537788&module_id=371103](https://www.winup.org/content.aspx?page_id=22&club_id=537788&module_id=371103)
Postdoctoral Opportunities

American Council of Learned Societies (ACLS) Leading Edge Fellowships
The ACLS is pleased to announce the third competition of the Leading Edge Fellowship program, which demonstrates the potential of humanistic knowledge and methods to solve problems, build capacity, and advance justice and equity in society. Leading Edge Fellowships place recent humanities PhDs with nonprofit organizations committed to promoting social justice in their communities. Fellows lead substantive projects that draw on the skills and capacities honed in the course of earning the humanities PhD, including advanced communication, research, project management, and creative problem solving. Leading Edge Fellows: Take on substantive, intellectually meaningful projects in a challenging job market; Receive annual stipends of $60,000 plus health insurance and professional development funding; Take the lead on defined portfolios of projects lasting up to 12 months; Undertake professional development activities with other fellows over the course of the fellowship; and Begin annual fellowship terms in September 2021.

- **Deadline:** May 6, 2021
- **Citizenship:** Applicants must be authorized to work in the US for the entire duration of the fellowship term. This includes Indigenous individuals residing in the United States through rights associated with the Jay Treaty of 1794, and those who hold DACA status, Temporary Protected Status, or political asylee or refugee status. Neither ACLS nor the host organization can sponsor fellows for visas.

Experimental Psychology Society (EPS) Postdoctoral Grants for Study Visits
This scheme aims to help finance postgraduate and postdoctoral research in experimental psychology. Awards will pay for travel to and accommodation at another institution outside an individual’s academic base. The purpose of the visit is to develop the applicant’s research skills, and may involve learning at first-hand about experimental procedures employed in the host laboratory, or designing and running studies that cannot already be carried out in the applicant’s home department. Awards will not be granted for work which forms an integral part of an existing Ph.D research project, nor for work which would normally be funded by other bodies (e.g. the applicant’s award-granting body or home institution). To apply for an EPS Study Visit, you must be an EPS postgraduate member or a postdoctoral worker who received their PhD within the last five years. It is a further condition of the award that either the researcher’s home institution or the institution to be visited, or both, must be in the UK. Preference will be given to applicants supervised by an EPS member, or whose visit involves a project with an EPS member. Grants will be for a maximum of £3,500 to any individual. In addition, the Society will, on receipt of appropriate invoices, reimburse the institution visited by the student for actual costs incurred as a consequence of the visit up to a maximum of £100.
Helen Hay Whitney Foundation (HHWF) Postdoctoral Research in Biomedical Sciences

The Helen Hay Whitney Foundation (HHWF) supports early postdoctoral research training in all basic biomedical sciences. To attain its ultimate goal of increasing the number of imaginative, well-trained and dedicated medical scientists, the Foundation grants financial support of sufficient duration to help further the careers of young men and women engaged in biological or medical research. Candidates who hold, or are in the final stages of obtaining a Ph.D., M.D., or equivalent degree and are seeking beginning postdoctoral training in basic biomedical research are eligible to apply for a fellowship. The Foundation accepts applications from candidates who have no more than one year of postdoctoral research experience at the time of the deadline for submitting the application (June 15, 2021), and who have received a PhD (or D.Phil. or equivalent) degree no more than two years before the deadline, or an M.D. degree no more than three years before the deadline. Since the number of available fellowships is limited, the Foundation does not make more than one award per year for training with a given supervisor. It also does not support more than two fellows per laboratory at one time.

- **Deadline:** June 15, 2021
- **Citizenship:** U.S. citizens
- **Website:** [http://hhwf.org/research-fellowship/](http://hhwf.org/research-fellowship/)

Huntington's Disease Society of America (HDSA) HD Human Biology Project

The Human Biology Project was launched in 2013 with the goal of fostering innovative research in collaboration with HD clinics to better understand the biology of Huntington’s disease as it occurs in humans. HDSA encourages researchers to consider one of HDSA’s 54 Centers of Excellence as a potential collaborator, but applicants may propose to work with any HD clinic around the world. One to two years of funding will be provided to support a scientist working collaboratively with an HD clinic anywhere in the world. Awards up to $75,000/year ($50,000 salary support and $25,000 research budget) will be granted. Preference will be given to young postdoctoral and clinical investigators (PhD and/or MDs) who are not yet independent.

- **Deadline:** May 7, 2021 (letter of intent due); July 9, 2021 (complete application due)
- **Citizenship:** Unspecified

James S. McDonnell Foundation (JSMF) Postdoctoral Fellowship Awards

The fellowship is geared to students near the completion of their doctoral training and committed to acquiring new skills and experience in a multi-disciplinary field such as complex systems science. This fellowship is targeted towards students who wish to
broaden their research experience and require protected time to acquire new knowledge and skills. Postdoctoral positions providing experiences that contribute new dimensions to a student’s doctoral education (adding theoretical skills to one’s experimental training or vice versa; pursuing work in a new topic or field) can be limited if the position is supported by institutional training grants or faculty research grants. Too often, the more traditional postdoctoral experience results in a postdoctoral fellow engaging in a research project dictated by the needs of the research grant (this is not a problem if the grant goals align with training goals) rather than providing the freedom for pursuing a creative and self-directed training program based on his or her interests or goals. The James S. McDonnell Foundation 21st Century Postdoctoral Fellowship Award in Understanding Dynamic and Multi-scale Systems is intended to provide students in the final stages of completing a Ph.D. degree more autonomy in identifying and securing postdoctoral training opportunities and is designed for students who have already demonstrated maturity, independence of thought, and self-initiation.

- **Deadline:** June 11, 2021
- **Citizenship:** Unspecified
- **Website:** [https://www.jsmf.org/apply/fellowship/](https://www.jsmf.org/apply/fellowship/)

### Los Alamos National Laboratory (LANL) Postdoctoral Research Associate Appointments

Postdoctoral Research Associates pursue research as part of ongoing LANL science and engineering programs. Funding is provided through programmatic or Laboratory Directed Research and Development funds. Most selected candidates will be offered a Postdoctoral Research Associate appointment. Each year, approximately 30 Postdoctoral Fellow appointments, including the Distinguished Postdoctoral Fellows, are awarded. Initial appointments are for two years, three years for the Distinguished Postdoctoral Fellows. Sponsored postdoctoral candidate packages are reviewed throughout the year.

- **Deadline:** For the August review cycle, Sponsored* candidate packages must be submitted by early July, with outcome of review in late August. *Sponsored means a Los Alamos National Lab staff member/mentor has been identified for the candidate. If a sponsor has not been identified, please submit your application no later than the beginning of the month prior to the deadline to allow sufficient time to identify a mentor.
- **Citizenship:** Unspecified
- **Website:** [https://www.lanl.gov/careers/career-options/postdoctoral-research/postdoc-program/postdoc-appointment-types.php](https://www.lanl.gov/careers/career-options/postdoctoral-research/postdoc-program/postdoc-appointment-types.php)

### Morton Cure Paralysis Fund (MCPF) Research Grants

The Morton Cure Paralysis Fund (MCPF) is committed to developing effective therapies (cures) for paralysis associated with spinal cord injury and other disorders of the central nervous system (CNS). MCPF funds activities that hold promise of identifying therapies (cures) for paralysis in humans. MCPF has particular focus of placing projects in the
research pipeline, that is, enabling scientists to develop the proof concept data necessary to apply for larger NIH grants. The development of effective therapies for chronic injury is a high priority for the organization. Basic research will be supported if it has clear potential to accelerate progress at the applied end of the continuum and/or if it reflects innovative research or a ‘change of direction.’ Most research awards range from $5,000 to $75,000 and are based on one-year contracts. A second year may be considered contingent upon the grantee submitting a six-month progress report, a 12-month progress report and a continuation application that is favorably reviewed by MCPF’s Grant Committee. Either senior scientists or postdoctoral fellows may serve as principal investigators. If the latter, the applicant must submit a letter of support from the laboratory’s senior scientist, as well as two other appropriate letters of reference.

- **Deadline:** April 30; October 31
- **Citizenship:** Unrestricted
- **Website:** https://mcpf.org/grant-applications/

**NSF Mathematical and Physical Sciences Ascending Postdoctoral Research Fellowships**

The purpose of the Mathematical and Physical Sciences Ascending Postdoctoral Research Fellowship (MPS-Ascend) program is to support postdoctoral Fellows who will broaden the participation of groups that are underrepresented in MPS fields in the U.S. including Blacks or African Americans, Hispanics, Latinos, and Native Americans (to include Alaska Natives, Native Hawaiians or other Native Pacific Islanders) as future leaders in MPS fields. The program is intended to recognize beginning investigators of significant potential and provide them with experience in research that will broaden perspectives, facilitate interdisciplinary interactions and help broadening participation within MPS fields. The program funds postdoctoral Fellows in postdoctoral research environments that will have maximal impact on their future scientific development and facilitates their transition into a faculty appointment. Awards will support research in any scientific area within the purview of the five MPS Divisions: the Divisions of Astronomical Sciences (AST), Chemistry (CHE), Materials Research (DMR), Mathematical Sciences (DMS), and Physics (PHY). Fellowships are awards to individuals, not institutions, and are administered by the Fellows.

- **Deadline:** June 15, 2021
- **Citizenship:** U.S. citizens and permanent residents

**NSF Office of Polar Programs Postdoctoral Research Fellowships (OPP-PRF)**

The Office of Polar Programs (OPP) offers postdoctoral research fellowships (PRF) to provide opportunities for early career scientists, including social scientists, to accomplish one or more of the following goals: expand their work across traditional disciplinary lines, develop new partnerships connecting the polar regions and/or non-polar research communities, and provide entry to researchers who have traditionally
had limited access to polar research resources, sites and facilities. The fellowship program encourages the integration of new investigators who have not previously worked in polar regions and/or innovative techniques that have not previously been applied to polar science into polar research. Additionally, the OPP-PRF aims to support beginning investigators with experiences that will establish them in positions of leadership in the scientific community. During their tenure, Fellows will affiliate with a host research institution(s) and conduct research on topics supported by OPP. Successful applicants will participate in a professional development program that will promote mentoring skills and coordinate their involvement in activities that increase the engagement of groups that have previously had limited engagement in polar Science, Technology, Engineering, and Mathematics (STEM).

- **Deadline:** June 18, 2021
- **Citizenship:** U.S. citizens, nationals, or permanent residents

**The National Academies of Sciences Engineering Medicine Army Research Laboratory (ARL) Distinguished Postdoctoral Fellowship**

For more than 50 years, the Army Research Laboratory (ARL) has conducted the great majority of the Army’s basic science programs. Currently, ARL scientists and engineers are pioneering research in such areas as neuroscience, energetic materials and propulsion, electronics technologies, network sciences, virtual interfaces, and synthetic environments and autonomous systems. In recognition of these outstanding achievements in research, ARL has established five named fellowships. The ARL Distinguished Postdoctoral Fellowships will provide the opportunity for recipients to pursue independent research of their own choosing that supports the mission of ARL. The Fellow benefits by having this opportunity and by working alongside some of the Nation's best scientists and engineers. ARL benefits by the expected transfer of new science and technology that enhances the capabilities of the U.S. Army and the warfighter in times of both peace and war. Candidates are expected to have already successfully tackled a major scientific or engineering problem during their thesis work or to have provided a new approach or insight, evidenced by a recognized impact in their field.

- **Deadline:** June 15, 2021
- **Citizenship:** There are no citizenship requirements; however, selected fellows must successfully complete a Department of Defense clearance process, requiring a background security investigation. Foreign nationals must get further DoD approval, requiring a background investigation. If needed, J-1 research scholar visas may be sponsored for fellows; this will be determined on a case-by-case basis at the time of the award.

University of Arizona Postdoctoral Research Associate, Obstetrics and Gynecology (College of Medicine-Phoenix)

The laboratory of Dr. Melissa Herbst-Kralovetz, as a part of a translational research program in the Department of Obstetrics and Gynecology at the University of Arizona College of Medicine-Phoenix, invites applicants to apply for a challenging and rewarding opportunity to contribute as a Postdoctoral Research Associate. The successful candidate will study the microbiota composition, and inflammatory profile as it relates to mucosal homeostasis of the female reproductive tract. The research couples clinical and translational research to advance women’s health. This position allows for the opportunity to work closely within an interdisciplinary and translational research team on a variety of diseases. For more information on the Herbst-Kralovetz laboratory, see [http://herbstkralovetzlab.weebly.com/](http://herbstkralovetzlab.weebly.com/). The University of Arizona College of Medicine – Phoenix anchors the 28-acre Phoenix Biomedical Campus in the heart of the Valley of the Sun. The College inspires and trains individuals to become exemplary physicians, scientists and leaders who are life-long learners and inquisitive scholars. Outstanding UA benefits include health, dental, and vision insurance plans; life insurance and disability programs; paid vacation, sick leave, and holidays; UA/ASU/NAU tuition reduction for the employee and qualified family members; state and optional retirement plans; access to UA recreation and cultural activities; and more!

Wenner-Gren Foundation for Anthropological Research Post-Ph.D. Research Grants

Post-Ph.D. Research Grants are awarded to individuals holding a Ph.D. or equivalent degree to support individual research projects. The program contributes to the Foundation's overall mission to support basic research in anthropology and to ensure that the discipline continues to be a source of vibrant and significant work that furthers our understanding of humanity's cultural and biological origins, development, and variation. The Foundation supports research that demonstrates a clear link to anthropological theory and debates, and promises to make a solid contribution to advancing these ideas. There is no preference for any methodology, research location, or subfield. The Foundation particularly welcomes proposals that employ a comparative perspective, can generate innovative approaches or ideas, and/or integrate two or more subfields.

- **Deadline:** May 1; November 1
- **Citizenship:** Unrestricted
