Dear Graduate Students,

I am starting off the academic year with an annual list of my favorite fellowships that are external to the UA. Scroll down for more details below!

Of course, there are lots more fellowships out there. Stay tuned for advice on how to find those our upcoming September GradFunding advice.

If you’re wondering what other ways grad students pay for their studies, you’re not alone. Check out Funding 101 for information.

Don’t forget to visit our OFCE website for a list of upcoming Workshops and Applications Support Programs.

Best of luck with your start of the semester and your educational endeavors.

Ford Foundation Dissertation Fellowships

Through its Fellowship Programs, the Ford Foundation seeks to increase the diversity of the nation’s college and university faculties by increasing their ethnic and racial diversity, to maximize the educational benefits of diversity, and to increase the number of professors who can and will use diversity as a resource for enriching the education of all students. Ford Foundation Fellowship awards are offered at the Predoctoral, Dissertation and Postdoctoral levels. Fellowships are awarded in a national competition. Awards are made to individuals who, in the judgment of the review panels, have demonstrated superior academic achievement, are committed to a career in teaching and research at the college or university level, show promise of future achievement as scholars and teachers, and are well prepared to use diversity as a resource for enriching the education of all students. To be eligible for a Ford Foundation Fellowship award you must be a citizen of the United States, demonstrate evidence of superior academic achievement (such as grade point average, class rank, honors or other designations), and be committed to a career in teaching and research at the college or university level. Awards will be made for study in research-based Ph.D. or Sc.D. programs; practice oriented degree programs are not eligible for support.

- **Deadline:** January 7, 2020
- **Citizenship:** All U.S. citizens, U.S. nationals, and U.S. permanent residents (holders of a Permanent Resident Card), as well as individuals granted deferred action status under the Deferred Action for Childhood Arrivals Program, political asylees, and refugees, regardless of race, national origin, religion, gender, age, disability, or sexual orientation

Presidential Management Fellowship

PMF Program is a flagship leadership development program at the entry level for advanced degree candidates. It was created more than three decades ago by Executive Order and has gone through many changes over the years. The Program attracts and selects the best candidates possible but is really designed with a narrower focus - developing a cadre of potential government leaders. It provides some sustenance during the first years of employment and encourages development of leadership capabilities. The PMF Program inculcates a lasting bond as well as a spirit of public service, ultimately encouraging and leading to a career in the government. Your two-year appointment will provide a fast-
paced opportunity to gain experience and develop your talents. You will be challenged with opportunities to flourish into a problem solver, strategic thinker and future leader. In addition to working at a single Federal agency, you may have the option to participate in a rotational opportunity at another agency.

The Link Foundation supports programs to foster the theoretical basis, practical knowledge, and application of energy, simulation, and ocean engineering and instrumentation research, and to disseminate the results of that research through lectures, seminars and publications.
National Defense Science and Engineering Graduate Fellowship Program (NDSEG)

The National Defense Science and Engineering Graduate Fellowship Program (NDSEG) of the US Department of Defense is intended for students at or near the beginning of graduate study for doctoral degrees in mathematical, physical, biological, and engineering sciences. It is a three-year award, which includes a stipend, plus full tuition and fees, not including room and board. As a means of increasing the number of U.S. citizens and nationals trained in science and engineering disciplines of military importance.

- **Deadline:** The 2020 application is currently being managed by SysPlus, contact ndseg.pmo@sysplus.com
- **Citizenship:** US citizens or nationals

National Institutes of Health (NIH) Ruth L. Kirschstein National Research Service Award (NRSA) Individual Predoctoral Fellowship

Five to six years of funding to obtain individualized, mentored research training from outstanding faculty sponsors while conducting research in scientific health-related fields relevant to the missions of the participating NIH Institutes and Centers.

- **Deadline:** See website
- **Citizenship:** U.S. citizens or nationals

National Physical Science Consortium Graduate Fellowship

The National Physical Science Consortium is a partnership between government agencies and laboratories, industry, and higher education. NPSC's goal is to increase the number of American citizens with graduate degrees in the physical sciences and related engineering fields, emphasizing recruitment of a diverse applicant pool including women and minorities. The NPSC Graduate Fellowship is unique in being: open to all American citizens; lasting for up to six years; providing a $20,000 annual stipend; covering tuition; allowing a fellow also to hold a research or teaching assistantship; including one or two
paid summer internships with a government agency; providing a mentor and the opportunity for a lasting relationship with the sponsor.

**NASA Earth and Space Science Fellowship (NESSF)**

The purpose of the NESSF is to ensure continued training of a highly qualified workforce in disciplines needed to achieve NASA’s scientific goals outlined above by performing research projects. Awards resulting from the competitive selection will be made in the form of training grants to the respective universities with the advisor serving as the principal investigator. All applications to NESSF must address the goals and objectives of one of the four SMD research programs: Earth Science, Heliophysics, Planetary Science, Astrophysics.

**National Science Foundation Graduate Research Fellowships (NSF GRFP)**

The National Science Foundation aims to ensure the vitality of the human resource base in biological science, technology, engineering, mathematics, physical science, earth science, and social science in the United States and to reinforce its diversity by offering approximately 1,000 graduate fellowships in this competition. The Graduate Research Fellowship provides three years of support for graduate study leading to research-based masters or doctoral degrees and is intended for students who are at the early stages of their graduate study.

Applicant Support is available for U of A students who register here: [https://grad.arizona.edu/ofce/application-support-programs/nsf-graduate-research-fellowship-program](https://grad.arizona.edu/ofce/application-support-programs/nsf-graduate-research-fellowship-program)

AAAS Science & Technology Policy Fellowships

Providing opportunities for outstanding scientists and engineers to learn first-hand about federal policymaking while using their knowledge and skills to address today’s most pressing societal challenges. AAAS seeks candidates from a broad array of backgrounds and a diversity of geographic, disciplinary, gender, and ethnic perspectives as well as disability status. Fellows have ranged in age from late 20s to early 70s. They represent a spectrum of career stages, from recent PhD graduates to faculty on sabbatical to retired scientists and engineers. Fellows also come from a range of sectors, including academia, industry, non-profit organizations, and government labs.

American Cancer Society Postdoctoral Fellowships

American Cancer Society (ACS) offers several 3-year awards to support the training and funding of researchers who have just received their doctorate. Applicants should be aiming to pursue an independent career in cancer research. Fellows will focus on improving health conditions, advocating health equity, and advancing cancer-related training, research, and treatment. Fellows will attend the ACS Postdoctoral Fellows Symposium or a domestic scientific meeting.

- **Deadline:** October 15, 2019
- **Citizenship:** U.S. citizens or permanent residents
Christine Mirzayan Science & Technology Policy Graduate Fellowships

Graduate and professional school students and those who have completed graduate studies (degree awarded) within the last five years may apply. Areas of study may include any social/behavioral science, medical/health discipline, physical or biological science, any field of engineering, law/business/public administration, or any relevant interdisciplinary fields.

- **Deadline:** September 6, 2019
- **Citizenship:** Applicants who are not US citizens or US permanent residents must hold one of the following visas: F-1 Students using CPT (Curricular Practical Training); F-1 Students using OPT (Optional Practical Training); J-2 Dependents; J-1 Students using academic training; J-1 Research Scholars with written approval of their Responsible Officer; DACA recipients; Adjustment Applicants, Refugees, Asylees, and Selected other visa classes

Innovative Postdoctoral Entrepreneurial Research Fellowships

Funded by the National Science Foundation, the Innovative Postdoctoral Research Fellowship (IPERF) defines a new career pathway for entrepreneurial-minded doctorate degree holders in science and engineering (S&E). IPERF addresses overlapping aims and directives of the NSF and the Small Business Administration (SBA) to: 1. Accelerate innovation at small businesses that support federal government research needs. 2. Broaden participation in small business innovative research and high-tech entrepreneurship. 3. Provide non-academic opportunities to apply advanced knowledge under business constraints. 4. Increase the number of high tech businesses started by underserved doctoral degree holders.
NSF Social, Behavioral and Economic Sciences Postdoctoral Research Fellowships

The Directorate for Social, Behavioral and Economic Sciences (SBE) offers Postdoctoral Research Fellowships to encourage independence early in the Fellow's career through supporting his or her research and training goals. The research and training plan of each Fellowship must address important scientific questions within the scope of the SBE Directorate and the specific guidelines in this solicitation. The SPRF program offers two tracks: (I) Fundamental Research in the SBE Sciences (SPRF-FR) and (II) Broadening Participation in the SBE Sciences (SPRF-BP).

Sloan Research Fellowships

The Sloan Research Fellowships seek to stimulate fundamental research by early-career scientists and scholars of outstanding promise. These two-year fellowships are awarded yearly to researchers in recognition of distinguished performance and a unique potential to make substantial contributions to their field. Candidates must hold a Ph.D. (or equivalent) in chemistry, computational or evolutionary molecular biology, computer science, economics, mathematics, neuroscience, ocean sciences (including marine biology), physics, or a related field.
UNESCO-L'Oreal International Fellowships for Women in Life Sciences

Each year, 15 young female researchers at doctoral or postdoctoral levels are awarded a fellowship to enhance their expertise in renowned institutions around the world. The Fellowships are worth up to $60,000 each and are awarded for a period of up to two years for scientists to undertake projects outside of their home country.
