

Subject: Graduate Fellowships You Need to Know

Dear Graduate Students,

Remember the saying the best time to plant a tree is ten years ago? At the beginning of the semester, you might be feeling like the best time to look for funding was at least a year ago. Don't worry. It is not too late and the Office of Fellowships and Community Engagement is here to help with our [annual list of our favorite fellowships](#). Scroll down for more details below! Best of luck with the start of the semester and all of your educational endeavors.

Shelley and Alex

GEM Consortium Fellowships

The mission of The National GEM Consortium is to enhance the value of the nation's human capital by increasing the participation of underrepresented groups (African Americans, American Indians, and Hispanic Americans) at the master's and doctoral levels in engineering and science. GEM provides three Fellowship Programs. MS Engineering Fellowship Program: The objective of this program is to promote the benefits of a masters degree within industry. Ph.D. Engineering Fellowship: The objective of this program is to offer doctoral fellowships to underrepresented minority students who have either completed, are currently enrolled in a master's in engineering program, or received admittance into a PhD program directly from a bachelor's degree program. Ph.D. Science Fellowship: The goal of this program is to increase the number of minority students who pursue doctoral degrees in the natural science disciplines.
