Congressional Hunger Center Fellowships
CHC is invested in developing a movement of anti-hunger leaders who are creating the political will necessary to end hunger. CHC believes that the anti-hunger movement must have a community of leaders that fill a variety of leadership roles. CHC leaders—creative, flexible, inspiring and courageous—mobilize their values to foster the skills, knowledge, and experience necessary to create a just, food secure world. CHC leaders collaborate in the shared responsibility of creating a progressive anti-hunger movement, ensuring the right to nutritious, affordable and culturally appropriate food for all people. Learn more about our two leadership development programs: the Bill Emerson National Hunger Fellows Program, and the Mickey Leland International Hunger Fellows Program.

Postdoctoral Opportunities
American Religion and Politics Postdoctoral Research Associate
The John C. Danforth Center on Religion and Politics seeks applications from junior scholars and recent Ph.D. graduates for up to three postdoctoral fellowships in residence at Washington University in St. Louis. The appointment is for one year, renewable for a second year. The research associates will spend most of their time pursuing research and writing on their own projects. They will also serve the intellectual life of the Danforth Center through participating in its biweekly interdisciplinary seminar. Their teaching responsibilities will include: 1) developing one course per year to augment the Center’s curricular offerings, and 2) possibly assisting in one additional course each year (depending on the particular teaching needs of the Center).
Washington University in St. Louis is an equal opportunity and affirmative action employer and especially encourages members of underrepresented groups to apply. Applicants should hold a doctorate in religious studies, politics, anthropology, American studies, history, Jewish studies, sociology, or another relevant field. Scholars should be engaged in projects centrally concerned with religion and politics in the United States, historically or in the present day.

**Washington University in St. Louis School of Medicine Postdoctoral Fellowship in Genetic Epidemiology**

The primary objective of this post-doctoral research training program is to produce cutting edge independent scientists and future research leaders in genetic epidemiology. The program is proposing to do this in a multidisciplinary setting and with emphasis on substantive applied orientation in cardiovascular disease (CVD) and CVD risk factors and other complex traits related to heart, lung, and blood disorders. The program team believes that the research environment at Washington University is outstanding for carrying out research in genetic epidemiology and cardiovascular genetic epidemiology. Background in one or more areas among biostatistics, statistical genetics, genetic epidemiology, and bioinformatics is highly desirable. Candidates with research interests in the development of novel analytic methods in genetic epidemiology are particularly encouraged to apply.

Eligibility: Must be a US citizen, permanent residence, or noncitizen national of the US
