Dear Graduate Students,

One of the challenges in writing the GradFunding Newsletter is trying to categorize the opportunities. For example, the National Institute of Justice is open to students in STEM. And although the name of the Mathematica Policy Research Fellowships indicates they should be in the STEM section, they are looking for fellows from a broad range of disciplines. In short, you may want to skim the entire list of fellowships to see if something pertains to you!

Academic Council on the United Nations System (ACUNS) Dissertation Award Program

The ACUNS Dissertation Fellowship Award recognizes emerging students of extraordinary potential who have reached the stage of writing an advanced graduate-level dissertation on a topic of direct and demonstrable relevance to the United Nations and/or the UN system. Applications not thus related to the UN and/or UN system will not be considered. An important component of the Award for its winner is the recognition of excellence that this entails throughout ACUNS’ global community of scholars and practitioners. The Award also includes a monetary component in the amount of $1,500.00 US. In addition, the winner is encouraged to attend the ACUNS Annual Meeting in that same year, where she/he will be introduced and recognized as the Award winner.

AccessLex Institute Legal Education Diversity Pipeline Grant Program

The Diversity Pipeline Research Grant Program provides funding to programs and initiatives aimed at helping college students and/or college graduates from historically underrepresented groups successfully matriculate into law school and the legal profession. The central goal of the grant is to increase the knowledge base around effective methods for increasing the enrollment and success of law students from historically underrepresented racial and socioeconomic backgrounds. Accordingly, we seek to fund collaborative programs that provide participants with meaningful content and experiences as well as holistic support. Funded programs must engage in rigorous program evaluation, systematically measuring outcomes and identifying scalable best practices.

- **Deadline:** March 31 (letters of inquiry); June 30 (full proposal)
- **Citizenship:** Unrestricted

AccessLex Institute Research and Dissertation Fellow Program
The Research and Dissertation Fellows Program is a partnership between AccessLex Institute and the Association for Institutional Research (AIR), designed to promote scholarship on issues related to access, affordability and the value of graduate and professional education. Preference is given to proposals focusing on diversity in legal education or the profession; the bar exam; or graduate and professional school finance, student aid or financial education. In addition, proposals utilizing regional, national or multi-institutional datasets are encouraged. Single institution research proposals that are designed to yield findings that are scalable and replicable are also accepted. This grant program awards $50,000 to scholars and $25,000 to doctoral students to support year-long research projects. Researchers may analyze pre-existing data or include the construction of a new dataset in their proposal.

**Aga Khan Foundation for International Students**

The Aga Khan Foundation provides a limited number of scholarships each year for postgraduate studies to outstanding students from select developing countries who have no other means of financing their studies, in order to develop effective scholars and leaders and to prepare them for employment, primarily within the AKDN. Scholarships are awarded on a 50% grant: 50% loan basis through a competitive application process once a year in June or July. The Foundation gives priority to requests for Master's level courses but is willing to consider applications for PhD programmes, only in the case of outstanding students who are highly recommended for doctoral studies by their professors and who need a PhD for the fulfilment of their career objectives (academic or research oriented).

- **Deadline:** March 6-31, 2020 (see website for country-specific deadlines)
- **Citizenship:** The Foundation accepts applications from nationals of the following countries: Bangladesh, India, Pakistan, Afghanistan, Tajikistan, Kyrgyzstan, Syria, Egypt, Kenya, Tanzania, Uganda, Madagascar and Mozambique. In France, Portugal, UK, USA and Canada, applications are accepted from those who are originally from one of the above developing countries, are interested in development-related studies and who have no other means of financing their education.

Aspen Tech/Data Policy Summer Fellowship

At the Aspen Tech Policy Hub, we take tech experts, teach them the policy process through an in-person fellowship program in the Bay Area, and encourage them to develop outside-the-box solutions to society’s problems. We model ourselves after tech incubators like Y Combinator, but train new policy thinkers and focus the impact of their ideas. We’re building new ideas for policymaking—every fellow must complete one practical policy output during their time with us—and an alumni base of technologists who understand policy and want to engage with it.

### National Institute of Justice (NIJ) Graduate Research Fellowship (GRF)

NIJ — the research, development and evaluation agency of the U.S. Department of Justice — is dedicated to improving knowledge and understanding of crime and justice
issues through science. NIJ provides objective and independent knowledge and tools to inform the decision-making of the criminal justice community to reduce crime and advance justice, particularly at the state and local levels. The goal of the GRF program is to increase the pool of scholars engaged in research that addresses the challenges of crime and justice in the United States, particularly at the state and local levels. There are two tracks: (1) Social and Behavioral Sciences: GRF-SBS supported research in all social and behavioral science disciplines including, but not limited to, criminology, psychology and sociology; and (2) Science, Technology, Engineering and Mathematics (STEM): GRF-STEM supported research in the life sciences, physical sciences, engineering, computer and information sciences, and the mathematical sciences.

**Open Technology Fund Information Controls Pre- and Post-Doctoral Fellowship**

The Information Controls Fellowship Program (ICFP) cultivates research, outputs, and creative collaboration on topics related to repressive internet censorship and surveillance. The ICFP supports examination into how governments in countries, regions, or areas of OTF’s core focus are restricting the free flow of information, cutting access to the open internet, and implementing censorship mechanisms, thereby threatening the ability of global citizens to exercise basic human rights and democracy; work focused on mitigation of such threats is also supported. Typically, ICFP fellows
have experience in fields such as computer science, engineering, information security research, software development, social sciences, law, and data visualization, among others.

**Property and Environmental Research Center Fellowships**

PERC Graduate Fellowships offer the ideal opportunity for graduate and law students to research issues related to natural resources, innovation, property rights, and the environment. Graduate fellows spend three months at PERC over the summer in Bozeman, Montana, researching and writing a paper under the mentorship of a PERC Senior Fellow. Graduate Fellows have the opportunity to work in depth on a thesis or dissertation and fast track their research. This is a chance to receive feedback from experts in fields including economics, law, and environmental science. Graduate Fellows are expected to interact with other PERC scholars and fellows while in residence, and it is intended that the fellowship period be thought of as an opportunity to either establish or strengthen a continuing relationship with PERC. Office space is provided in a congenial, stimulating work environment in a locale of unparalleled natural beauty.

Arizona Commission on the Arts Voices of the Wilderness Alaskan Artist-in-Residence Program

The Voices of the Wilderness artist residency is a unique opportunity. It is modeled after traditional residencies in the national parks... with a twist. Instead of staying at a remote wilderness cabin, our participating artists are paired with a wilderness specialist and actively engaged in stewardship projects, such as research, monitoring, and education. The idea is to give artists a sense of the stewardship behind America’s public lands, fostering an artistic exploration of these natural and cultural treasures. The hoped-for result is artwork that communicates something of the meaning of these lands.

### History Colorado Women’s History Fall Fellowship

History Colorado is seeking three recipients for its Center for Colorado Women’s History Fall Fellowship. We invite scholars, activists, artists, musicians and writers who are engaged in the expansion and expression of knowledge to help inform the understanding of women in Colorado’s history, specifically through the interdisciplinary lens and methodologies of women’s studies, gender studies, and/or race and ethnic studies. Scholars, activists, artists, musicians, and/or writers will focus on the generation of knowledge and/or the expression of history within the scope of the interdisciplinary fields of women’s studies, gender studies and ethnic studies. Participants will help to inform the narrative of women’s history at the Center for Colorado Women’s History and contribute to the greater understanding of the history of women in Colorado. Successful candidates will be willing to engage in museum and community events such as exhibits, arts projects, programs, and collaborations with other History Colorado properties and sites.

### Houston Center for Contemporary Craft Residency Program

Applicants must be able to fulfill a program requirement of working in their studios for two days per week during HCCC public hours. All resident artists are required to open their studios to public interaction on Saturdays and one other day of the week (TBD), as well as during exhibition openings and specific educational programs on the evenings and weekends. Applicants should consider the public-facing nature of the residencies and the fact that a major goal of the program is to provide visitors with an opportunity to explore contemporary craft through engaging with working artists.

- **Deadline:** March 1, 2020
Citizenship: International applicants must provide proof of eligibility to work in the U.S.—green card or appropriate visa—with application.

Kerouac Project Residencies for Writers

The Kerouac Project provides four residencies a year to writers of any stripe or age, living anywhere in the world. In the past we have accepted writers with no formal writing education alongside those with MFA’s and impressive résumés. You will be judged on the quality of the writing sample you submit. Each residency consists of approximately a three month stay in the cottage where Jack Kerouac wrote his novel Dharma Bums. Utilities and a food stipend of $1,000 are included. As writer-in-residence, all you are required to do is live in the Kerouac House during your residency, work on your writing project, and participate in two events—a Welcome Potluck dinner for you, and a Final Reading of your work at the Kerouac House at the end of your residency. Should you desire them, the Kerouac Project can also offer opportunities for you to participate in other readings, lead workshops, and interact in other ways with the vibrant Central Florida literary community.

Kettering Foundation (Pre- and Post-doc) Graduate Resident Research Positions

As a research organization the Kettering Foundation relies upon a team of resident researchers to contribute to its programs. The research group includes positions open to doctoral candidates and recent post-docs. The position includes residency at the Dayton, Ohio campus for one academic year (usually July – July). Researchers provide focused reviews of relevant scholarly and professional literature, work on individualized
projects, and participate in research sessions with people and organizations attempting to strengthen democracy around the world. Residents work individually and within a 4-6 member research group. The position is considered full-time with the expectation that the researcher will have the flexibility to complete the dissertation and maintain an active individual research agenda. We seek candidates whose interests are complementary to the foundation’s interdisciplinary research into the challenges of democratic governance.

**Linguistics Program - Doctoral Dissertation Research Improvement Awards (Ling-DDRI)**
Through its competitive grants competitions, the Linguistics Program of the U.S. National Science Foundation seeks to advance basic understanding and methods in the study of language. The Linguistics Program expects that the research it supports will draw upon and enhance fundamental theory in linguistics, and it will encourage and support potentially transformative research that has potential larger-scale, longer-term significance for both basic understanding and for societal benefit. Doctoral dissertation research improvement (DDRI) awards provide support to enhance and improve the dissertation projects conducted by doctoral students enrolled in U.S.

**Mellon Graduate Fellowship in “Neoliberalism at the Neopopulist Crossroads”**

Applications are invited from graduate students at the ABD level in all doctoral programs at the University of Arizona for two one-year, non-renewable Graduate Fellowships associated with a Mellon-funded Sawyer Seminar on the subject of “Neoliberalism at the Neopopulist Crossroads.” This Sawyer Seminar will re-evaluate prevailing theories of neoliberalism’s intellectual histories, political imaginations and cultural practices in light of the tumultuous turn toward right-wing populisms that has occurred in many parts of the globe. We will consider to what extent the new populist movements and governments represent a forceful reaction to the changes effected by neoliberalism, especially since the economic crisis of 2008. The Graduate Fellows will serve as part of the leadership team for the grant. They will work with UA faculty and a postdoctoral fellow in planning the overall program, hosting campus visitors,
coordinating with our community partners, designing and hosting the international conference, curating the online archive of the seminar, and preparing a collection of essays for publication.

Applicants should submit (1) Statement of interest and qualification of no more than 500 words, and (2) Curriculum Vitae to Jeff Schlueter. Please use the following subject heading for the email in which you submit your application: SawyerApplication ApplicantLastname (e.g. Subject: SawyerApplication Trujillo). Please also have your recommender send to the same email address their faculty support letter detailing your scholarly excellence and relevance of work. Please have the recommender submit their letter in an email to Jeff Schlueter with the following subject heading: SawyerRecommendation ApplicantLastname (e.g.: Subject: SawyerRecommendation Trujillo).

Idaho National Laboratory (INL) Graduate Internships

Graduate internships at INL offer a great opportunity to explore research topics. Internships are primarily awarded to qualified masters and doctoral degree candidates in science, technology, engineering and mathematics (STEM) fields. Qualified candidates in other areas, however, are also considered. INL’s internship terms are designed to match a typical university term, lasting anywhere from 10 to 16 weeks. Summer interns should come to INL expecting to work 40 hours. There is, however, flexibility within that 40-hour workweek to assist interns with scheduling conflicts, if needed. INL interns are paid a nationally competitive wage that is based on the number of credits they have earned and degree program they are enrolled in.

**Tech Launch Arizona (TLA) Student Innovation Challenge!**

Through the Challenge, our goal is to engage students in the 4th Industrial Revolution, designing solutions to challenges they encounter in their daily lives. The Challenge is an idea-stage competition designed to encourage UArizona students – both undergraduate and graduate – to propose and develop solutions to real-world problems. The program offers students the opportunity to take novel ideas to the next level where they can create real-world impact. Working individually or in teams, students identify a problem and develop a range of solutions from hardware prototypes to software or mobile applications. Students will then propose both the perceived challenge and the potential solution to address the unmet needs in any variety of sectors including global health, mechanical and electrical engineering, optical sciences, water, energy, agriculture and more. TLA will award a total of up to $50,000 in funding for projects with the most promising ideas. Awards per project will be based on the funding requests and the discretion of TLA to maximize the number of ideas or projects funded.

Worldwide, ~370 million indigenous people live in over 90 countries. Although, indigenous people are only approximately 5% of the world population, they represent 90% of cultural diversity and hold 20% of the land that maintains 80% of the world’s remaining biodiversity. However, indigenous people often lack access to energy, water, and food infrastructure. Indige-FEWSS’s goal is to develop a diverse workforce with intercultural awareness and FEWS expertise to address FEWS challenges in indigenous communities. Indige-FEWSS believes developing technical solutions to these challenges requires an understanding of indigenous societies, governance, and culture and the ability to work effectively in these contexts.

**Wenner-Gren Foundation Hunt Postdoctoral Fellowship**

Hunt Postdoctoral Fellowships support the writing-up of already completed research. The fellowship is awarded to scholars in the earlier stages of their careers, when they frequently lack the time and resources to develop their research for publication. By providing funds for scholars to devote themselves full-time to writing, the Foundation aims to enable a new generation of scholars to publish significant works that will impact the development of anthropology. The program contributes to the Foundation’s overall mission to support basic research in anthropology and to ensure that the discipline continues to be a source of vibrant and significant work that furthers our understanding of humanity’s cultural and biological origins, development, and variation. The Foundation supports research that demonstrates a clear link to anthropological theory and debates, and promises to make a solid contribution to advancing these ideas. There is no preference for any methodology, research location, or subfield. The Foundation particularly welcomes proposals that employ a comparative perspective, can generate innovative approaches or ideas, and/or integrate two or more subfields.
