Dear Graduate Students,

I have to admit, I’m not terribly excited about the New Year. A whole new year seems like a lot to take on. But creating this newsletter did help me feel more hopeful. Good work is happening: There are arts in the national parks. Conservationists are improving sustainable fishing practices. New journalists and storytellers are being funded. And so much more. We invite you to look at the list below to search for funding for the good work each of you is doing. Onward.

**FUNDING OPPORTUNITIES IN THE ARTS, HUMANITIES, AND SOCIAL SCIENCES**

**Arthur and Elizabeth Schlesinger Library on the History of Women in America Dissertation Grants – Radcliffe Institute for Advanced Study**

The Arthur and Elizabeth Schlesinger Library on the History of Women in America offers a variety of research grants to support new scholarship on women, gender, and sexuality. Applications will be evaluated on the significance of the research topic and its creativity in drawing on the library’s holdings. The agency invites predoctoral scholars whose dissertation research requires use of the library’s collections to apply for research support. Grants of up to $3,000 will be given on a competitive basis. Applicants must have advanced to candidacy in a doctoral program in a relevant field and have an approved dissertation topic.

- **Citizenship:** Unspecified, ask library

**NYU Journalism Matthew Power Literary Reporting Award**
The Matthew Power Literary Reporting Award is a grant of $12,500 to support the work of a promising early-career nonfiction writer on a story that uncovers truths about the human condition. The award proceeds from the recognition that many important stories need to be reported from afar, and that publications do not always have the resources to send a writer where the story is. The money need not be used exclusively for travel, but we expect that most successful applications will include such expenses.

Society for the Advancement of Behavior Analysis (SABA) Sidney W. and Janet R. Bijou Grant

The Society for the Advancement of Behavior Analysis (SABA) welcomes proposals for research in child development from a behavior analytic perspective. This grant will be provided to support doctoral student research designed to incorporate behavioral principles to advance our understanding of human development. Developmental concepts could include chronological and developmental age, neurobiological and genetic factors associated with development, or the impact of developmental trajectories on adult behavior. While intervention research could be appropriate, the primary research questions (independent variables) must be related to developmental and behavior analytic principles. Examples are changes in reinforcer preference with age, effectiveness of verbal behavior interventions in children of differing developmental ages, the development of second languages or bilingualism, equivalence relations, delay discounting, neurobiological correlates or interventions, the role of epigenetic influences, or environment-gene-behavior interactions.

Society for the Study of Social Problems (SSSP) Racial/Ethnic Minority Graduate Fellowship

The Society for the Study of Social Problems (SSSP), in keeping with its philosophy of active engagement with social problems, participation in social problem solutions, and advancement of knowledge through study, service and critical analysis, established the Racial/Ethnic Minority Graduate Scholarship at its annual meeting in August 1993. At the 2017 Annual Meeting, the Board of Directors voted to change the scholarship to a fellowship. The purpose of the fellowship is: To identify and support developing minority scholars who exemplify and give fresh voice to the SSSP history and commitment to scholar activism; To give renewed energy and wider lenses to diversity in scholarship; To increase the pool of minority social and behavioral scientists; and To establish a formal commitment to diversity through support of two minority doctoral students in the social and/or behavioral sciences inclusive of course work or dissertation research support who demonstrates a commitment, through his, her, or their scholarly examination, of any aspect of inequality, injustice, and oppression

**FUNDING OPPORTUNITIES IN SCIENCE AND ENGINEERING**

### American Fisheries Society - Steven Berkeley Marine Conservation Fellowship

This fellowship was created by American Fisheries Society (AFS) in 2007 to honor the memory of Steven Berkeley, a dedicated fisheries scientist with a passionate interest in integrating the fields of marine ecology, conservation biology, and fisheries science to improve fisheries management. Berkeley was a long-time member of AFS and a member of the first Board of Directors of the Fisheries Conservation Foundation. The fellowship comprises a competitively based $10,000 award to a graduate student actively engaged in thesis research relevant to marine conservation. Research topics may address any aspect of conservation; a focus on fisheries issues is not required.

**Argonne Laboratory Graduate Programs**

Argonne offers a variety of research appointments, cooperative education opportunities, and specialized schools to fit the needs—and schedules—of any graduate student. We encourage students pursuing a Master’s degree as well as Ph.D. candidates to check out the many opportunities we offer. Come to Argonne, expand and create new knowledge – and change your world. Opportunities include Graduate Research, Graduate Internships, Graduate Temporary Employment, Graduate Training Programs, Visiting Student Program, and Faculty Programs.
Arizona Space Grant Graduate Fellowship
The UA/NASA Space Grant Program and nominating departments provide six graduate fellowships per year to exceptional graduate students interested in promoting the understanding of space-related research to the public and who are studying space sciences/engineering, public policy, earth sciences, science education, or global change-related fields. Space Grant fellows are required to complete an educational outreach project as part of their fellowship. They must be a graduate student at the University of Arizona studying a NASA STEM (science, technology, engineering, mathematics).

Damon Runyon Fellowship Award
The Foundation encourages all theoretical and experimental research relevant to the study of cancer and the search for cancer causes, mechanisms, therapies and prevention. Candidates must apply for the fellowship under the guidance of a Sponsor—a scientist (tenured, tenure-track or equivalent position) capable of providing mentorship to the Fellow. In addition to aiding in the planning, execution and supervision of the proposed research, the Sponsor’s role is to foster the development of the Fellow’s overall knowledge, technical and analytical skills, and capacity for scientific inquiry. The Sponsor is also expected to assist the Fellow in attaining his/her career goals.

De Duve Institute Post-Doctoral Program in Belgium

The de Duve Institute is on the list of institutions recognized by the Belgian government to be eligible for tax-exempt prizes and subsidies. The Institute awards 1-year fellowships, which are renewable once, to young scientists who in principle have not obtained their PhD degree at a Belgian University and who wish to carry out their post-doctoral research within one of our research groups. Candidates must hold a PhD or MD degree, and must be in a situation of “international mobility”, i.e. they should in principle not have resided or carried out their main activity (work, studies, etc.) in Belgium for more than 12 months in the 3-year period before submission of their application for a de Duve Institute fellowship.

Institute Project on Decoloniality Postdoctoral Fellowships

Applications are invited for postdoctoral bursaries from candidates in any area of the Arts, Humanities and Social Sciences. We would particularly welcome applications linked to the themes of the new Institute Project on Decoloniality (IPD’24) taking place at IASH from 2021 to 2024. This project invites scholars from around the world to visit Edinburgh and conduct research on the theme of decoloniality, broadly understood. We and our partners warmly encourage applications exploring issues including but not limited to: decolonising the curriculum; anticolonial and decolonial theory; neo-colonialism; intellectuals in and from the Global South; intersectionality and multiple inequalities; decolonising gender and sexuality; race and racialisation; de-centering Western feminist knowledge production; Scotland’s role in the British Empire; reparations; the University of Edinburgh’s colonial legacy and alumni roles in the slave trade; and the histories of Edinburgh graduates and staff of colour. It is important to note that we still welcome applications on all topics and in all areas of the arts, humanities and social sciences to continue IASH’s traditional interdisciplinary work across the 12 CAHSS schools, alongside IPD’24.

Intelligence Community Postdoctoral Research Fellowships

The Intelligence Community (IC) Postdoctoral Research Fellowship Program (IC Postdoc Program) was established in 2000 to support unclassified basic research in areas of interest to the IC. In collaboration with Research Advisors, Postdocs develop and submit technical research proposals that align with research opportunities proposed by the IC community. The research is conducted by the Postdocs while working in partnership with the Research Advisor, and collaborating with an advisor from the Intelligence Community (IC Advisor). Postdocs who have completed their Ph.D. within the past five years are invited to apply.

- **Citizenship**: U.S. citizen
- **Deadline**: February 26, 2021
L’Oréal USA for Women in Science Postdoctoral Fellowship
The For Women in Science program was created out of a simple belief: the world needs science, and science needs women because women in science have the power to change the world. The L’Oréal USA For Women in Science fellowship program awards five women postdoctoral scientists annually with grants of $60,000 each for their contributions in Science, Technology, Engineering and Math (STEM) fields and commitment to serving as role models for younger generations. Candidates must have completed their PhD and have started in their postdoctoral research position by the application deadline.

National Academies Research Associateship Program
The mission of the NRC Research Associateship Programs (RAP) is to promote excellence in scientific and technological research conducted by the U. S. government through the administration of programs offering graduate, postdoctoral, and senior level research opportunities at sponsoring federal laboratories and affiliated institutions. In these programs, prospective applicants select a research project or projects from among the large group of opportunities listed on this website. Prior to completing an application, prospective applicants should contact the proposed Research Adviser to assure that funding will be available if their application is recommended by NRC panels. Once mutual interest is established between a prospective applicant and a Research Adviser, an application is submitted through the NRC WebRap system.

- **Citizenship:** Varies by opportunity
- **Deadline:** February 1, May 1, August 1, November 1

Ocean Sciences Postdoctoral Research Fellowships
The Division of Ocean Sciences (OCE) offers postdoctoral research fellowships (PRF) to provide opportunities for scientists early in their careers to work within and across traditional disciplinary lines, develop partnerships, and avail themselves of unique research resources, sites and facilities. The fellowship program is intended to provide beginning investigators of significant potential with experiences that will establish them in positions of leadership in the scientific community. During tenure, Fellows affiliate with a host research organization(s) and conduct research on topics supported by OCE. Fellowships will include participation in a professional development program that emphasizes development of mentoring skills and that coordinates the involvement of Fellows in conferences and activities that are focused on increasing the engagement of underrepresented groups in science, technology, engineering, and mathematics (STEM).

Translational Research Institute for Space Health (TRISH) Postdoctoral Fellowships

TRISH is soliciting proposals from postdoctoral researchers ready to help solve the health challenges of human deep space exploration. This postdoc program supports early-career scientists pursuing disruptive, breakthrough research with the potential to reduce risks to astronaut health and performance.

Citizenship: U.S. citizens, permanent residents, or persons with pre-existing visas obtained through their sponsoring institutions that permit postdoctoral training for the project’s duration.

Deadline: Jan 28, 2022

UC Berkeley School of Public Health Postdoctoral Positions

The UC Berkeley Demography department seeks candidates to fill three postdoc positions for the 2021-2022 academic year (with possibility of renewal), and the start date is flexible. Two of them will be NIA T32 postdocs (you can see the now expired but descriptive advertisement here: [https://aprecruit.berkeley.edu/JPF02266](https://aprecruit.berkeley.edu/JPF02266) - with two caveats: the PhD degree must be conferred at time of appointment, not application, and for these positions the applicant must be a US citizen or permanent resident. We also have one or more postdoc opportunities with the CenSoc project (censoc.berkeley.edu, although a T32 postdoc could also work on CenSoc. Unlike the T32 postdocs, this one does not need to be a US citizen for the CenSoc postdoc. Interested persons should send a cover letter describing research interests and specifying which postdoc opportunity(ies) that are of interest, with a CV, and use a subject heading of ‘Postdoc 2021-2022’ to popcenter@demog.berkeley.edu.
