Dear Graduate Students,

Welcome back to campus! Below you will find numerous opportunities including funding to work in Norway for a year, fellowships for research in aeronautics or children’s media (thanks Mister Rogers!), and Confluencenter’s amazing fellowships for graduate students.

Please don’t miss this chance to give us feedback on how to improve this newsletter: https://uarizona.co1.qualtrics.com/SE/?SID=SV_begh1HMaBDiZ8rz
The survey takes between two and five minutes. We would appreciate your help.

Center for Disease Control Summer Graduate Environmental Health Internship
The Graduate Environmental Health program (GEH) is a paid ten week summer internship available for graduate students with majors or interests deemed to be in support of environmental health missions at NCEH/ATSDR. During the program interns will be assigned to projects that utilize the skills they’ve acquired through graduate studies and personal experiences. Interns will also be able to take advantage of lecture series and other opportunities offered at the CDC. Interns will receive a weekly stipend while participating in this program. The mission of the internship is to offer selected students a broad overview of environmental health at the federal level and to foster an interest in environmental health as a career. Applicants should have a passion for the environment and an eagerness to learn about the environment’s link to human health.
Eligibility: U.S. citizen or Permanent Resident with green card
Congressional Hispanic Caucus Institute Public Policy and Graduate Fellowship Program

The **CHCI Public Policy Fellowship Program** offers talented Latinos, who have earned a bachelor's degree within two years of the program start date, the opportunity to gain hands-on experience at the national level in public policy.

The **Graduate Fellowship Program** offers exceptional Latinos who have earned a graduate degree or higher related to a chosen policy issue area within three years of program start date unparalleled exposure to hands-on experience in public policy. This program focuses specifically on the areas of: Higher Education, Secondary Education, Health, Housing, Law, and STEM (Science, Technology, Engineering and Math). This unique fellowship program seeks to enhance participants' leadership abilities, strengthen professional skills, and increase the presence of Latinos in public policy areas.

Citizenship: U.S. citizens, lawful permanent residents, asylees, or individuals who are lawfully authorized to work full-time without restriction for any U.S. employer

**Funding Opportunities in the Humanities/Arts/Social Sciences**

**Arizona Commission on the Arts Professional Development Grants**

Professional Development Grants (PDG) are designed to assist Arizona artists, arts administrators and arts educators with funding support for participation in professional development and skills-building activities which contribute to significant professional growth. Learning activities include (but are not limited to) the following: participation in conferences or symposia; artist or administrator residencies; training with mentors/master artists. Learning activities must be structured and documentable. Residencies and training opportunities are eligible activities, provided the applicant has been invited or accepted and will be a participant, not solely a deliverer of learning or programming. Applicants must make a compelling case as to why a particular self-identified learning activity was selected and how it will have a substantial impact on their work and/or community.

**National Institutes of Health National Heart, Lung, and Blood Institute - Ruth L. Kirschstein National Research Service Award (NRSA) Individual Predoctoral Fellowship (Parent F31)**
The purpose of the Kirschstein-NRSA predoctoral fellowship (F31) award is to enable promising predoctoral students to obtain individualized, mentored research training from outstanding faculty sponsors while conducting dissertation research in scientific health-related fields relevant to the missions of the participating NIH Institutes and Centers. The proposed mentored research training must reflect the applicant’s dissertation research project and is expected to clearly enhance the individual’s potential to develop into a productive, independent research scientist. The training plan should document the need for, and the anticipated value of, the proposed mentored research and training in relationship to the individual’s research career goals. The training plan should also facilitate the fellow’s transition to the next stage of his/her research career.

Citizenship: By the time of award, the individual must be a citizen or a non-citizen national of the United States or have been lawfully admitted for permanent residence
Deadlines: April 13, August 13, December 13

**National Institutes of Health Summer Internships Program in Biomedical Research**
Summer programs at the National Institutes of Health (NIH) provide an opportunity to spend a summer working at the NIH side-by-side with some of the leading scientists in the world, in an environment devoted exclusively to biomedical research. The NIH consists of the 240-bed Mark O. Hatfield Clinical Research Center and more than 1200 laboratories/research projects located on the main campus in Bethesda, MD and the surrounding area as well as in Baltimore and Frederick, MD; Research Triangle Park, NC; Hamilton, MT; Framingham, MA; and Detroit, MI.

NOTE: the number of positions in Hamilton, Framingham, and Detroit is limited.

Citizenship: U.S citizen or permanent resident

National Academies Research Associateship Program
The mission of the NRC Research Associateship Programs (RAP) is to promote excellence in scientific and technological research conducted by the U. S. government through the administration of programs offering graduate, postdoctoral, and senior level research opportunities at sponsoring federal laboratories and affiliated institutions. In these programs, prospective applicants select a research project or projects from among the large group of opportunities listed on this website. Prior to completing an application, prospective applicants should contact the proposed Research Adviser to assure that funding will be available if their application is recommended by NRC panels. Once mutual interest is established between a prospective applicant and a Research Adviser, an application is submitted through the NRC WebRap system.
Citizenship: Depends on position
Deadline: Reviews are conducted four times each year and review results are available approximately 6-8 weeks following the application deadline.

Wellcome Trust Fellowships in Public Health and Tropical Medicine
This scheme provides researchers from low- and middle-income countries - who are at an early stage in the establishment of their research careers - with opportunities for research experience
and high-quality research training in public health and tropical medicine. Research projects should be aimed at understanding and controlling diseases (either human or animal) of relevance to local, national or global health. This can include laboratory-based molecular analysis of field or clinical samples, but projects focused solely on studies in vitro or using animal models will not normally be considered under this scheme. This fellowship is part of a series of career awards aimed at building sustainable capacity in areas of research that have the potential for increasing health benefits for people and their livestock in low- and middle-income countries. Citizenship: Must be a national or legal resident of a low- and middle-income country (see website)
Eligibility: National of a low or middle income country
Deadline: May 23, 2016 (pre-application)
