General Announcements

Call for GPSC Travel Grants Program Judges, January/March Round

The GPSC Travel Grants Program would like to invite you to participate in the Travel Grants application review process, an essential part of our program's competitive grant funding process. Why serve as a judge?

- 1) You can formulate a more competitive application for future rounds by reviewing actual applications
- 2) You have something additional to write in the service area of your CV or resume
- 3) You will get an insider's perspective on an evaluation process similar to major granting agencies like NSF/NIH/NEH
- 4) You can be involved in a small but central part of student governance

If you would like to be a judge, please email gpscfundings@email.arizona.edu as soon as possible. If you agree to serve as a judge, you will be contacted during the second week of March with applications to review. Please note the review process will take no more than 1.5 to two hours of your time.

General Funding Opportunities

Graduate/Undergraduate Team Industry Engagement Awards (UA)

These awards are available to match a new UA industry-sponsored agreement with support for graduate research. The industry partner will fund the first academic semester of the graduate assistantship and the Office for Research & Discovery will fund the second, as well as support the undergraduate assistants for the two-semester duration. The purpose of this assistantship is threefold: to catalyze new, funded research between University researchers and industry or to enhance competitiveness for University-industry efforts in the pursuit of external funding opportunities of mutual interest; to enhance the preparation of graduate and undergraduate students to work in an industry environment, as well as to gain experience supervising and mentoring an interdisciplinary team of undergraduates; and to provide undergraduates an intensive research experience in an interdisciplinary team environment oriented toward industry.

Health Policy Research Scholarship

A new leadership development opportunity for full-time doctoral students from underrepresented populations or historically disadvantaged backgrounds training to be researchers and interested in health policy research. The goal of this program is to create a large cadre of diverse scholars whose research, connections, and leadership will inform and influence policy toward a Culture of Health. Health Policy Research Scholars is not intended for students pursuing a clinical doctorate without a research focus. Rather, the program is designed for doctoral students from a variety of social sciences (e.g., urban planning, health, economics, ethnography, education, social work). Each year the program will select up to 50 first- or second-year doctoral scholars pursuing research-focused degrees in an eligible discipline that can advance a Culture of Health. Participants receive an annual stipend up to \$30,000 for up to four years and are eligible for a competitive dissertation grant of up to \$10,000.

Funding Opportunities in the Humanities/Arts/Social Sciences

American Indian Studies Dissertation Writing Fellowship Yale University

The Fellowship will support a graduate scholar in any doctoral field for the academic year, beginning August 1, 2014 and ending July 31, 2015. Graduate students working towards careers in higher education who have completed all doctoral requirements but the dissertation are invited to apply. The expectation is that the dissertation will be completed during the fellowship year. The criteria for selection will be based solely on an assessment of the quality of the candidate's work and the project's overall significance for the study of American Indian and Indigenous Studies. The Roe Cloud Fellowship will provide support comparable to that for Yale University graduate students, including an annual stipend, full access to Yale facilities and services, and health care coverage. The fellow will work in close affiliation with the Ethnicity, Race, and Migration Program and have access to Yale's exceptional research libraries.

Department of Energy Office of Science Graduate Student Research (SCGSR) Program

The goal of the Office of Science Graduate Student Research (SCGSR) program is to prepare graduate students for science, technology, engineering, or mathematics (STEM) careers critically important to the DOE Office of Science mission, by providing graduate thesis research opportunities at DOE laboratories. The SCGSR program provides supplemental awards to outstanding U.S. graduate students to pursue part of their graduate thesis research at a DOE laboratory in areas that address scientific challenges central to the Office of Science mission. The research opportunity is expected to advance the graduate students' overall doctoral thesis while providing access to the expertise, resources, and capabilities available at the DOE laboratories. The SCGSR program provides supplemental funds for graduate awardees to conduct part of their thesis research at a host DOE laboratory in collaboration with a DOE laboratory scientist within a defined award period. The award period for the proposed research project at DOE laboratories may range from 3 to 12 consecutive months.

Citizenship: U.S. Citizens

National Endowment for the Humanities Mellon Fellowships for Digital Publication

Through NEH-Mellon Fellowships for Digital Publication, the National Endowment for the Humanities and The Andrew W. Mellon Foundation jointly support individual scholars pursuing research projects that require digital expression and digital publication. To be eligible for this special opportunity, an applicant's plans for digital publication must be essential to the project's research goals. That is, the project must be conceived as digital because the nature of the research and the topics being addressed demand presentation beyond traditional print publication. Successful projects will likely incorporate visual, audio, and/or other multimedia materials or flexible reading pathways that could not be included in traditionally published books.

Deadline: April 12, 2017 (for projects beginning January 2018)

National Endowment for the Humanities Postdoctoral Fellowships

The National Endowment for the Humanities, a federal agency in Washington, D.C., administers a fellowships program that provides financial support for individuals who wish to pursue scholarly research projects in the humanities. Projects should involve advanced research that is of value to scholars, general audiences, or both. Recipients usually produce articles, monographs, books, digital materials, archaeological site reports, translations, editions, or other scholarly resources in the humanities.

Deadline: April 12, 2017 (for projects beginning January 2018)
