

Summer 2018 GradFunding

Dear Graduate Students,

Congratulations on reaching the end of the semester! For those of you who are finishing up your graduate work and want to get off this list, please send me an email saying “remove from GradFunding list.”

This is our only GradFunding newsletter until August. If you don't find a fellowship below that is a good fit for you, here are some tips for searching for funding (<https://grad.arizona.edu/ofce/articles/2014/08/finding-funding>).

Lots of great opportunities below. Remember, the summer is the best time to work on fellowship applications!

Shelley

Announcements

Learn about AAAS Science & Technology Policy Fellowships (STPF)

Not sure what is next after your PhD? Come learn about the AAAS Science & Technology Policy Fellowships (STPF). These awards provide opportunities to outstanding scientists and engineers to learn first-hand about policy-making while contributing their knowledge and analytical skills to the federal policy-making process. Fellows serve yearlong assignments in the executive, legislative, and judicial branches of the federal government in Washington.

Applicants must hold a doctoral level degree (Ph.D., Sc.D., M.D., DVM, EdD, etc. *) and must be a U.S. citizen.

This fellowship is an excellent opportunity. We are gathering several former AAAS fellows to share information and tips on the fellowship.

When: Monday, May 14 from 12:00 – 1:30

Where: McClelland Park (Building #78, on the corner of Park Ave and 4th St), Room 210

RSVP: <https://docs.google.com/forms/d/e/1FAIpQLSfQsI2Q0U2wiX31TAhINdIh8aEqm6T-viNEeCYGdlGDKlchNQ/viewform>

Application Support for the NSF GRFP

The purpose of the NSF GRFP is to help ensure the vitality and diversity of the scientific and engineering workforce in the United States. The program is a wonderful source of funding for graduate students – providing awardees with \$34,000 annually for three years, as well as additional benefits. NSF Fellows at the University of Arizona receive full tuition, mandatory fees, student health insurance for the Fellow, and a \$500 travel grant during tenured years. Students at the University of Arizona are eligible to receive application support for this fellowship. If you plan to apply and would like application support, please contact Shelley Hawthorne Smith (shellh@email.arizona.edu).

Website: <http://www.nsfgrfp.org/> (please check eligibility)

DAAD – German Academic Exchange Service Priority Candidacy

DAAD Fellowships provide support for study in Germany. The University of Arizona facilitates the selection of a priority candidate. The following opportunities through DAAD are generally most relevant for graduate students: study scholarships (provide an opportunity to do independent study in Germany or to complete a full Master's degree), research grants (primarily to do doctoral research). As a partner university, DAAD encourages the UA to select one priority candidate. Priority candidates from partner universities receive preferential status in the general fellowship competitions and have a considerably higher likelihood of being selected. Please contact Shelley Hawthorne Smith (shellh@email.arizona.edu) if you would like to be considered for the priority candidacy.

Website: <https://www.daad.org/>

Summer 2018 Fellowship Application Support Program

If you plan to work on a fellowship application for graduate or postdoctoral study over the summer, we can help. The Summer Fellowship Application Support Program provides advice, deadlines, and feedback on your drafts.

Deadlines: Monday, May 14th.

More information: <https://grad.arizona.edu/ofce/summer-fellowship-application-support-program>

Questions: Shelley Hawthorne Smith (shellh@email.arizona.edu)

General Funding Opportunities

American Institute of Indian Studies – Dissertation Research Fellowships and Performing/Creative Arts Fellowships

For more than 50 years, the American Institute of Indian Studies has provided funding to pre- and post-doctoral scholars and artists in pursuit of knowledge about India.

Junior Research Fellowships are available to doctoral candidates at U.S. universities in all fields of study. These grants are specifically designed to enable doctoral candidates to pursue their dissertation research in India. Junior Research Fellows establish formal affiliation with Indian universities and Indian research supervisors. Awards are available for up to 11 months.

Senior Performing and Creative Arts Fellowships are available to accomplished practitioners of the performing arts of India and creative artists who demonstrate that study in India would

enhance their skills, develop their capabilities to teach or perform in the U.S., enhance American involvement with India's artistic traditions or strengthen their links with peers in India.

Citizenship: Unrestricted

Deadline: July 1, 2018

Website: <http://www.indiastudies.org/research-fellowship-programs/>

Consortium for Faculty Diversity in Liberal Arts Colleges: Dissertation and Postdoctoral Fellowships

The Consortium now invites applications for dissertation fellowships and post-doctoral fellowships from those who will contribute to increasing the diversity of member colleges by increasing their ethnic and racial diversity, maximizing the educational benefits of diversity and/or increasing the number of professors who can and will use diversity as a resource for enriching the education of students.

Citizenship: Applicants must be able to provide evidence of U.S. citizenship or unconditional permanent resident status at the time of hire.

Deadline: rolling (before September 30 preferred)

Website: <http://www.gettysburg.edu/about/offices/provost/cfd/>

Fulbright U.S. Student Program

The Fulbright U.S. Student Program offers opportunities for students and young professionals to undertake international graduate study, advanced research, university teaching, and primary and secondary school teaching worldwide. The program currently awards approximately 1,900 grants annually in all fields of study, to go to more than 140 countries worldwide.

If you are interested in applying or simply want more information, contact the Office of Nationally Competitive Scholarships (oncs@email.arizona.edu). Students must apply through this office.

Citizenship: USA

Campus Deadline: Sept 8

Website: <http://us.fulbrightonline.org/about/types-of-grants>

National Geographic Society Grant Opportunities

The National Geographic Society currently offers three types of grant applications—Early Career, Exploration, and Requests for Proposals.

All proposed projects should be bold, innovative, and potentially transformative and have a primary focus in conservation, education, research, storytelling, or technology. Projects should also align to one of our three focus areas.

Citizenship: Unrestricted

Deadline: July 10, 2018

Website: <https://www.nationalgeographic.org/grants/grant-opportunities/>

National Institute for Transportation and Communities Diversity Grants

NITC has funds available to support underrepresented undergraduate and graduate students participating in transportation research. The goal of the program is to expose and encourage

women and people of color to transportation research and job training opportunities. PIs can request up to \$5,000 for an undergraduate student or \$7,500 for a graduate student.

Citizenship: Unspecified

Deadline: Rolling

Science and Humanities Communication Fellowship - UA Museum of Art

Are you an artist, historian, scientist, or researcher looking to share your work with the public?

The University of Arizona Museum of Art, a partner in the Portal to the Public Network, is now recruiting science and humanities experts for its Fall program. Become a Science and Humanities Communication Fellow and develop skills and experience to help you connect with your audience and share your work with the broader public. Participants from various research and expertise backgrounds train together to encourage the sharing of ideas, insights, and expertise.

Citizenship: Unspecified

Deadline: June 1

Website: <http://artmuseum.arizona.edu/science-humanities-communication-fellowship>

Arts, Humanities, and Social Sciences

College Art Association Professional-Development Fellowships

CAA's Professional-Development Fellowships program supports promising artists, designers, craftpersons, historians, curators, and critics who are enrolled in MFA, PhD, and other terminal degree programs nationwide. Fellows are honored with \$10,000 grants to help them with various aspects of their work, whether it be for job-search expenses or purchasing materials for the studio. CAA believes a grant of this kind, without contingencies, can best facilitate the transition between graduate studies and professional careers. One award will be presented to a practitioner—an artist, designer, and/or craftsperson—and one award will be presented to an art, architecture, and/or design historian, curator, or critic.

Citizenship: U.S. citizen or permanent resident

Deadline: October 18, 2018

Website: <http://www.collegeart.org/programs/fellowships>

Craft Research Fund Grants

The mission of the Craft Research Fund Graduate Research Grants is to encourage, expand, and support graduate research about craft in the United States.

- Project Grants: Grants up to \$15,000 for research, writing, support documentation, images or rights to use images or text, as part of the research yet to be completed.
- Exhibition Research Grants: Grants up to \$15,000 will be awarded to support exhibition research relating to the goals of the Craft Research Fund.
- Graduate Research Grants: Grants of up to \$10,000 support research related to a Master's thesis or dissertation relating to U.S. studio craft by students enrolled in graduate programs in any accredited college or university.
- Travel Grants: \$500 travel grants are awarded to individuals invited to read papers relating to U.S. studio craft at any scholarly conference.

The fund aims to: support innovative research on artistic and critical issues in craft theory and history; explore the inter-relationship among craft, art, design and contemporary culture; foster new cross-disciplinary approaches to scholarship in the craft field in the United States; and advance investigation of neglected questions in craft history and criticism in the United States. Citizenship: U.S. citizens, in the process of applying for citizenship or have a U.S. Social Security number.

Deadline: September 28, 2018

Website: <http://www.craftcreativitydesign.org/grants/craft-research-fund/>

Georgia O'Keeffe Museum Academic Fellowships in American Modernism

The Georgia O'Keeffe Museum supports innovative, original, and intellectually rigorous scholarship focused on American Modernism through its Academic Fellowship Program. The Museum invites applications for research fellowships for the 2019 calendar year.

Stipends are \$4,500/month for a maximum of 2 months. Housing is not provided. Fellows will also be reimbursed for one-time direct travel to Santa Fe based on mileage between their home and the Research Center.

Citizenship: Unspecified

Deadline: May 31, 2018

Huntington Research Fellowships

The Huntington is an independent research center with holdings in British and American history, literature, art history, and the history of science and medicine. The Library collections range chronologically from the eleventh century to the present and include seven million manuscripts, 420,000 rare books, 275,000 reference works, and 1.3 million photographs, prints, and ephemera. The Burndy Library consists of some 67,000 rare books and reference volumes in the history of science and technology, as well as an important collection of scientific instruments. Within the general fields listed above there are many areas of special strength, including: Middle Ages, Renaissance, 19th- and 20th-century literature, British drama, Colonial America, American Civil War, Western America, and California. The Art Collections contain notable British and American paintings, fine prints, photographs, and an art reference library. In the library of the Botanical Gardens is a broad collection of reference works in botany, horticulture, and gardening. The Huntington will award to scholars over 150 fellowships for the academic year

2017-2018. These fellowships derive from a variety of funding sources and have different terms. Recipients of all fellowships are expected to be in continuous residence at the Huntington and to participate in and make a contribution to its intellectual life. Fellowship tenure is one to five months and award amount is \$3,000/month.

Citizenship: Unspecified

Deadline: Sept 1 – Nov 15

Website: <http://www.huntington.org/fellowships/>

John F. Kennedy Library Foundation Fellowships

The John F. Kennedy Library Foundation offers competitive research fellowships every year to scholars and students who wish to make use of the archival holdings (including audiovisual materials) of the John F. Kennedy Presidential Library. Topics include, but are not limited to, foreign intelligence and the presidency; research on immigration, naturalization, or refugee policy; and research on domestic policy, political journalism, polling, or press relations.

Citizenship: not specified

Deadline: August 15

Website: <http://www.jfklibrary.org/Research/Research-Grants-and-Fellowships.aspx>

Lilly Library Fellowships - Indiana University at Bloomington

The Lilly Library invites applications for visiting fellowships for research in residence in its collections. The Lilly Library is the principal rare book and manuscript library of Indiana University. Its holdings support research in British, French, and American literature and history; the literature of voyages and exploration, specifically the European expansion in the Americas; early printing, and the Church, children's literature, music; film, radio and television; medicine, science, and architecture; and food and drink. The Everett Helm Visiting Fellowship program supports research and provides access to the collections of the Lilly Library for scholars residing outside the Bloomington area. The Mendel Fellowships are intended to support research by scholars from around the world in areas of particular interest to the Mendels, including: the history of the Spanish Colonial Empire; Latin American independence movements; European expansion in the Americas; voyages, travels and exploration; geography, navigation and cartography; German literature and history; and music, including sheet music.

Citizenship: unspecified

Deadline: September 30, 2018

Summer Positions at the Johns Hopkins Center for Talented Youth

Johns Hopkins Center for Talented Youth (CTY) is currently looking for a professor or graduate student who would be interested in teaching Politics in the Middle East at our summer program located at Princeton University this summer. Politics of the Middle East is offered at our Global Issues site at Princeton University where students in grades 10-11 are exposed to complex and sometimes controversial topics across a wide range of science and the humanities. In Politics in the Middle East, students look at the history, culture, and politics of the region in order to shed light on the challenges facing nations and people around the world. The dates for this course are

June 21 – July 14. Salaries for instructors start at \$2,400 per three-week session and increase based on experience and qualifications. Salaries for teaching assistants start at \$1,200 per three-week session. Room and board are provided at the site for the duration of the program. For those interested, there are other courses and sessions available at other sites after July 14, including our International Politics and Model United Nations and Advanced Geography courses offered at locations on the East and West coasts. For questions, please contact Raughley Nuzzi at RNuzzi1@jhu.edu. Those interested in applying for summer employment can do so here: <https://cty.jhu.edu/jobs/summer/apply/index.html>

Ucross Foundation for Spring Artist Residencies

My favorite fellowships are those that provide lunch; this one does, although it also doesn't come with a stipend, but some things are more important than money, like lunch. Founded in 1981, the Ucross Foundation provides uninterrupted time, work space, and living accommodations to competitively selected visual artists, writers, and composers. Nearly thirteen hundred individuals from every state in the U.S. as well as from Germany, France, Scotland, England, Poland, Egypt, the Netherlands, Canada, and Thailand, have spent time at Ucross since it first opened its doors in Sheridan, Wyoming. Residencies vary from two to six weeks. At any one time, there are up to nine individuals in residence, representing a mix of visual artists, writers, and composers. In most cases, studios are separate from living quarters. Lunch and dinners are prepared Monday to Friday by a professional chef with ample provisions on hand for breakfasts and weekends. There is no charge for a residency. Artists, writers, and composers from around the United States and the world, in any stage of their professional career, are invited to apply to work on an individual or collaborative project.

Citizenship: Unrestricted

Deadline: October 1 for Spring Session

Website: <http://www.ucrossfoundation.org/residency-program/>

Opportunities in Science, Technology, Engineering, and Math

American Speech-Language-Hearing Foundation Graduate Scholarships

The American Speech-Language-Hearing Foundation has a variety of scholarship competitions for graduate students in the fields of communication sciences and disorders. These include scholarships for doctoral students, international students, minority students, students with disabilities, and other opportunities.

Citizenship: Varies according to scholarship

Deadline: May 23, 2018

GEM Fellowship Program

The National GEM Consortium provides three Fellowship Program. The MS Engineering Fellowship Program provides practical engineering summer work experiences through an employer sponsor and a portable academic year fellowship. The Ph.D. Engineering Fellowships offer doctoral fellowships to underrepresented minority students who have either completed, are

currently enrolled in a master's in engineering program, or received admittance into a PhD program. The Ph.D. Science Fellowship aims to increase the number of minority students who pursue doctoral degrees in the natural science disciplines — chemistry, physics, earth sciences, mathematics, biological sciences, and computer science.

Citizenship: Applicants must be U.S. citizen or U.S. permanent resident at the time of application

Deadline: November 13

Website: <http://www.gemfellowship.org/students/gem-fellowship-program/>

Methane Hydrate Science Research Fellowship

The NRC, in association with the U.S. Department of Energy's National Energy Technology Laboratory (NETL), administers a Research Fellowship Program designed to support the development of Methane Hydrate science and enable highly qualified graduate and postgraduate students to pursue advanced degrees and training in an area of increasing national interest. With respect to the energy production potential of gas hydrates, interest is in projects that will provide improved tools, methods, and information relative to the remote detection, characterization, and appraisal of production potential of Methane Hydrates. With respect to gas hydrates as a part of the global environment, interest is in projects that provide an improved understanding of the processes that control the distribution, occurrence, and stability of gas hydrates in marine and permafrost settings. The 2 or 3-year fellowships are available to support work towards the M.S. and Ph.D. degrees, or to support a Postdoctoral appointment. Research during the term of the fellowship can be performed at any federal lab or accredited university in the United States.

Citizenship: USA

Deadline: August 1 (and February 1)

Website: http://sites.nationalacademies.org/PGA/RAP/PGA_050492

Microwave Engineering Fellowship/Microwave Engineering for Medical Applications Fellowship

The purpose of fellowship is to recognize and provide financial assistance to graduate students who show promise and interest in pursuing a graduate degree in applying microwave engineering to medical applications. The student must be actively pursuing a graduate degree in electrical engineering, applied physics, biomedical engineering or other appropriate field on a full-time basis at an accredited institution of higher learning. It is expected that the student will be engaged in studies and research or thesis related activities for at least 12 months following the award. Research work must clearly involve the application of RF and microwave techniques to medical problems, supervised by a full-time faculty supervisor.

Citizenship: unrestricted

Deadline: October 15, 2018

Website: <http://www.mtt.org/students.html>

NSF/FDA Scholar-in-Residence at FDA

The objectives of the program are to transform science and engineering understanding in health and health care, and to provide educational research experiences in science, engineering, and mathematics. The program objectives include promoting fundamental research into the scientific

and engineering processes necessary for: (a) the innovation and development of safe and effective new medical devices and technologies; (b) expanding the knowledge pool of scientific techniques and tools needed to identify basic mechanisms by which medical devices interact with the body from the molecular to the physiological level; and (c) preparing the fundamental knowledge base in the basic sciences that will be needed to shepherd emerging medical device technologies efficiently and responsibly from the early research stage to societal adoption.

Graduate Students at FDA -- For science, engineering, and mathematics graduate students for one to four semesters of full- or part-time work at FDA.

Citizenship: Unrestricted (advisor is the PI)

Deadline: proposals accepted any time

https://www.nsf.gov/pubs/2018/nsf18556/nsf18556.htm?WT.mc_id=USNSF_25&WT.mc_ev=click#elig

Tylenol Future Care Scholarship

An independent selection committee will evaluate the applications and select the recipients considering: college GPA; academic records in public health/health education, med school, nursing and/or pharmacy; community involvement/volunteer service; essay content.

- Up to 20 scholarships ranging from \$500-\$2500 will be awarded annually.
- 10 - \$10,000 scholarships will be awarded annually.
- 30 - \$5,000 scholarships will be awarded annually.

The scholarships will be applied to tuition, fees, books, supplies and equipment required for course load. If the applicant is a graduate student he or she must be able to provide proof of enrollment to a graduate program in public health/health education, med school, nursing and/or pharmacy degree program.

Citizenship: USA, Puerto Rico, or DC

Deadline: June 28, 2018

Website: <http://www.tylenol.com/news/scholarship>

WaterReuse Arizona Scholarships

WaterReuse Arizona will award two (2) scholarships of two-thousand five hundred dollars (\$2,500) each to Arizona university and college students. The purpose of this award is to encourage full-time students with a focus on wastewater reclamation, water reuse, and/or desalination. The scholarships will be awarded in September 2017 at the Water Reuse National Symposium in Phoenix, Arizona.

Citizenship: Unspecified

Deadline: June 15

Postdoctoral Opportunities

AAAS Science & Technology Policy Fellowships (STPF)

AAAS Science & Technology Policy Fellowships (STPF) provide opportunities to outstanding scientists and engineers to learn first-hand about policy-making while contributing their knowledge and analytical skills to the federal policy-making process. Fellows serve yearlong assignments in the executive, legislative, and judicial branches of the federal government in Washington. Applicants must hold a doctoral level degree (Ph.D., Sc.D., M.D., DVM, EdD, etc.*), in any of the following: Medical and Health sciences; Biological, Physical or Earth sciences; Social and Behavioral sciences; Computational sciences and Mathematics; Engineering disciplines (applicants with a MS in engineering and three years of professional engineering experience also qualify).

Citizenship: U.S. citizen

Deadline: November 1, 2018

Website: <https://www.aaas.org/page/stpf/become-st-policy-fellow>

Alcohol Research Group – Public Health

The Alcohol Research Group postdoctoral training program is oriented toward the pursuit of alcohol-related social science, health services, and epidemiological research. We accept applications for our postdoctoral fellowship on a rolling basis. The postdoctoral fellowship offers the opportunity to work with leaders in the field and can be a critical stepping stone toward becoming an independent investigator in addictions research.

The postdoctoral training program is appropriate for:

- Recent doctoral graduates wishing to increase their research experience and establish a publication record in alcohol studies.
- Established researchers seeking to make a transition to the alcohol studies field.

Scholars who are new to alcohol studies are welcome to apply. Recent doctoral graduates are eligible if they are seeking a transition from related fields of study or if they are continuing previous study in the field. Established faculty are eligible if they have not previously conducted research in alcohol studies.

Citizenship: U.S. citizens or permanent residents

Deadline: December 31, 2018

Website: www.arg.org/training/post_doctoral_fellowship.php

American Institute of Indian Studies – Senior Research Fellowships

Senior Research Fellowships are available to scholars with a PhD or its equivalent. These grants are designed to enable scholars who specialize in South Asia to pursue further research in India and to establish formal affiliation with an Indian institution. Short-term awards are available for up to four months. Long-term awards are available for six to nine months. A limited number of humanists will be granted fellowships paid in dollars funded by the National Endowment for the Humanities.

Citizenship: See website

Deadline: July 1, 2018

Website: <http://www.indiastudies.org/research-fellowship-programs/>

Burroughs Wellcome Fund-ASTMH Postdoctoral Fellowship in Tropical Infectious Diseases

The Burroughs Wellcome Fund-ASTMH Postdoctoral Fellowship in Tropical Infectious Diseases was established in 1999 to support career development of physician/scientists focused on infectious diseases of the developing world. Thanks to a generous grant from the Burroughs Wellcome Fund, these fellowships provide funding for selected individuals to conduct research in tropical infectious diseases (and, on occasion, other clinical conditions unique to tropical medicine). The fellowship is designed to stimulate or sustain interest in research in tropical infectious diseases by individuals who are planning academic or other career paths ultimately focused on clinical research relevant to tropical or developing areas of the world.

Deadline: see website

Website: <https://www.astmh.org/awards-fellowships-medals/astmh-sponsored-fellowships>

Fulbright Scholar Program

The Fulbright Scholar Program offers teaching, research or combination teaching/research awards in over 125 countries. Opportunities are available for college and university faculty and administrators as well as for professionals, artists, journalists, scientists, lawyers, independent scholars and many others. In order to meet the changing needs of academia and develop new options to better accommodate the interests and commitments of today's scholars, the program has introduced several innovations to the 2014-2015 program, including: Fulbright Flex Awards, Fulbright Postdoctoral/Early Career Awards, Salary Stipend Supplements, and Teaching English as a Foreign Language Awards. Interested faculty and professionals are encouraged to learn more about these opportunities, and hundreds of others, by visiting the Catalog of Awards.

Citizenship: U.S. citizenship

Deadline: August 1, 2018

Website: <http://www.cies.org/program/postdoc>

If you intend to apply for a Fulbright Scholar award, please notify Dale LaFleur, the UA Fulbright Scholar Campus Representative, at dlaflaur@email.arizona.edu. (For information on the Fulbright U.S. Student Program, visit <http://www.honors.arizona.edu/oncs>)

Human Frontier Science Program (HFSP) Postdoctoral Fellowships

HFSP postdoctoral fellowships encourage early career scientists to broaden their research skills by moving into new areas for study while working in a new country. HFSP fellowships are for three years. Fellows may choose to stay for up to three years in the host country or use the last year of their fellowship to return to their home country or to move to another HFSP member country. Long-Term Fellowships (LTF) are for applicants with a Ph.D. in a biological discipline, who will broaden their expertise by proposing a project in the life sciences which is significantly different from their previous Ph.D. or postdoctoral work. Cross-Disciplinary Fellowships (CDF) are for applicants with a Ph.D. from outside the life sciences (e.g. in physics, chemistry, mathematics, engineering or computer sciences), who have had limited exposure to biology during their previous training.

Citizenship: unrestricted

Deadline: August or September 2018

Website: <http://www.hfsp.org/funding/postdoctoral-fellowships>

National Research Council Postdoctoral and Senior Research Awards

The National Academies of Sciences, Engineering, and Medicine conducts the NRC Postdoctoral and Senior Awards program which offers competitive awards four times a year for postdoctoral and senior scientific research to be conducted in residence at participating US federal laboratories and affiliated institutions. Areas of research include infectious diseases, medical parasitology, epidemiology, malaria, enteric diseases, medical entomology, vaccine development and related diseases. Award recipients design their own projects to be compatible with the research interests of the sponsoring laboratory.

Deadlines: February 1, May 1, August 1, and November 1.

Citizenship: Restrictions vary according to position

Radcliffe Institute Fellowship Program

The Radcliffe Institute Fellowship Program is a scholarly community where individuals pursue advanced work across a wide range of academic disciplines, professions, and creative arts. Radcliffe Institute fellowships are designed to support scholars, scientists, artists, and writers of exceptional promise and demonstrated accomplishment who wish to pursue work in academic and professional fields and in the creative arts. In recognition of Radcliffe's historic contributions to the education of women and to the study of issues related to women, the Radcliffe Institute sustains a continuing commitment to the study of women, gender, and society. Applicants' projects need not focus on gender, however. Applications are accepted in the humanities, social sciences, creative arts, natural sciences, and mathematics.

William T. Grant Postdoctoral Scholar's Grant for Research on Children and Youth

Since our inception, the William T. Grant Foundation has been interested in facilitating a better understanding of how children and youth develop and thrive. Although our mission remains the same, our research interests shift to keep pace with the changing world. Currently, we are interested in research with the potential to improve the lives of young people between the ages of 5 and 25 in the following areas: reducing inequality; improving the use of research evidence; connecting research, policy, and practice; improving youth services in NY. Four to six William T. Grant Scholars are selected each year, and each receives \$350,000 distributed over a five-year period.

Deadline: July 5, 2018
