Announcements

International Education Week
International education advances cultural understanding and the protection of cultural heritage while also preparing individuals to work in a global society. Honoring those benefits and others associated with international education and global exchange, the UA is hosting a series of events during International Education Week (IEW), which is a joint initiative of the U.S. Department of State and the U.S. Department of Education established in 2000.

Calendar of Events: https://global.arizona.edu/international-education-week-events

International Funding for U.S. Graduate Students
This workshop will provide information for graduate students on various sources of funding for international internships and research. Graduate students who have received funding for research and internships abroad will explain how they prepared for their experiences and describe the challenges and benefits of doing international work. Attendees will leave the workshop with information on funding opportunities, advice for applying for opportunities, and tips for preparing for travel.
When: Friday, November 20, 2015 from 12:00pm to 1:00pm
Location: Student Union Bookstore, Lower Level

Education Pioneers Graduate Fellowship and Analyst Fellowship
With a mission to identify, train, connect, and inspire a new generation of leaders dedicated to transforming America’s education system so that all students receive a quality education, Education Pioneers has been building a nationwide network of high-potential professionals and supporting them to launch non-teaching education careers since 2004. Fellows work with school districts, charter schools, government agencies, nonprofits, and other leading education organizations to complete critical, high-impact projects that advance Partner organizations’ important work. Graduate School Fellowship: Over the course of one summer or one year, the fellow prepares talented business, law, policy, and education graduate students to become education leaders. Analyst Fellowship: This fellowship grants data-savvy working professionals the opportunity to consult for 10 months on a data-driven project within the education space.

Citizenship: must be authorized to work in the U.S.A.

Deadline: December 16, 2015

**Funding Opportunities in the Humanities/Arts/Social Sciences**

**Carter Manny Award**
Since the Carter Manny Award’s establishment in 1996, over $560,000 has been awarded in recognition of outstanding doctoral students whose work represents some of the most innovative and advanced scholarship on architecture and its role in the arts, culture, and society. The Carter Manny Award supports dissertation research and writing by promising scholars whose projects focus on fields of inquiry supported by the Graham Foundation: architecture; architectural history, theory, and criticism; design; engineering; landscape architecture; urban planning; urban studies; visual arts; and other related fields. The award is intended to assist students enrolled in graduate programs in architecture, art history, and other programs in the fine arts, humanities, and social sciences. The Graham Foundation offers two Carter Manny Awards: a research award for a student at the research stage of the doctoral dissertation and a writing award for a student at the writing stage of the doctoral dissertation. The research award is acknowledged with $15,000 and the writing award is acknowledged with $20,000

**Chateaubriand Humanities and Social Sciences Fellowship**
This fellowship program offered by the Cultural Services of the French Embassy in the US, targets outstanding Ph.D. students from American universities who seek to engage in research in France, in any discipline of the Humanities and Social Sciences. HSS Chateaubriand fellows are selected through a merit-based competition, through a binational collaborative process involving expert evaluators from both countries. HSS Chateaubriand grantees are applicants who answer the program’s criteria of excellence and whose sojourn in France will support the program’s philosophy. The HSS Chateaubriand fellowship program’s purpose is to foster bilateral cooperation at Ph.D. and research level, and to build and strengthen bridges between our two nations.

**Council of American Overseas Research Centers Mediterranean Regional Research Fellowship (pre- and post-doctoral)**
The Council of American Overseas Research Centers is pleased to offer a focused regional fellowship program enabling pre- and early postdoctoral scholars to carry out research in the humanities and related social sciences in countries bordering the Mediterranean and served by American overseas research centers. Funding for this program is generously provided by The Andrew W. Mellon Foundation.
Council of American Overseas Research Centers Multi-Country Research Fellowship Program
This program supports advanced regional or trans-regional research in the humanities, social sciences, or allied natural sciences for U.S. doctoral candidates and scholars who have already earned their Ph.D. Preference will be given to candidates examining comparative and/or cross-regional research. Scholars must carry out research in two or more countries outside the United States, at least one of which hosts a participating American overseas research center. Approximately eight awards of up to $10,500 each will be given each year.

DOE National Nuclear Security Administration Stewardship Science Graduate Fellowship
As part of its science and national security missions, the U.S. Department of Energy National Nuclear Security Administration (DOE NNSA) supports a broad spectrum of basic and applied research in science and engineering at the agency's national laboratories, at universities and in industry. Because of its continuing needs, NNSA has a special interest in encouraging development of the next generation of leaders in stewardship science. The DOE NNSA SSGF program's primary objective is to encourage the training of scientists by providing financial support to talented students who study and research designated areas of stewardship science accompanied by practical work experience at DOE NNSA research facilities.
Generation Google Scholarship
The Generation Google Scholarship was established to help aspiring computer scientists excel in technology and become leaders in the field. Applicants should be a student from an underrepresented group in computer science (African American, Hispanic, American Indian, or Female. Students with disabilities should apply to the Google Lime Scholarship on google.com/students/scholarships).

Link Foundation - Advanced Stimulation & Training Fellowships
The award consists of a two-year fellowship of $28,000 per year for two years to be used for the Fellow's academic year and summer stipend. Tenable in the US and Canada. The research proposed in these applications for this fellowship must embody the objective and characteristics found in the original flight training simulator; i.e., the training and preparation of individuals to perform in complex, interactive, real-time environments. Thus the emphasis is on training rather than education, and on simulation for training purposes rather than for design-development or product-research purposes.

**U.S. Department of Commerce/National Oceanic and Atmospheric Administration - Dr. Nancy Foster Scholarship Program**

NOAA's Office of National Marine Sanctuaries is seeking applications for the Dr. Nancy Foster Scholarship Program from individuals, particularly women and minorities, who, due to financial constraints, may otherwise not be able to pursue an advanced degree in oceanography, marine biology, or maritime archaeology (including all science, engineering, social science, and resource management of ocean and coastal areas). The program seeks to increase the number of women and minorities in these scientific disciplines, particularly as they relate to the mission of the Office of National Marine Sanctuaries (ONMS). The Office of National Marine Sanctuaries conducts, sponsors, and facilitates research to better understand ecosystems and cultural resources in marine sanctuaries, their changing condition, and the significance of threats.

**Alfred Fleishman Diversity Fellowships in Communications**

Alfred Fleishman, one of our agency’s founders, was dedicated to promoting human rights and helping people from diverse backgrounds communicate with and understand one another. In his honor, FleishmanHillard offers the Alfred Fleishman Diversity Fellowship program. The program targets ethnically diverse candidates and applicants who have a passion for ethnic or cultural diversity. All applicants must demonstrate a commitment to promoting ethnic and cultural diversity through their work, education and life experiences. It provides six- to 12-month paid Fellowships — with benefits — professional development opportunities and a mentor program. Fellows will contribute to client projects while rotating among account teams, gaining practical experience in the field of integrated communications from some of the industry’s best counselors.

**Woods Hole Oceanographic Institution Postdoctoral Programs**
The Woods Hole Oceanographic Institution offers several types of postdoctoral awards. A term appointment to the position of Postdoctoral Scholar, Fellow, or Investigator may be offered to an individual who has completed the requirements for a Ph.D. degree. The degree may or may not have been officially awarded; a letter from the individual's university asserting that he or she has completed all of the requirements for the degree is satisfactory for establishing eligibility for the position. Each type of postdoctoral appointment has a slightly different selection and appointment procedure.
