**GENERAL FELLOWSHIP OPPORTUNITIES**

**American Association of University Women (AAUW) American Dissertation Fellowships**
Dissertation Fellowships offset a scholar’s living expenses while she completes her dissertation. The fellowship must be used for the final year of writing the dissertation. Applicants must have completed all course work, passed all preliminary examinations, and received approval for their research proposals or plans by the preceding November. The program provides fellowships for women pursuing full-time study to complete dissertations, conducting postdoctoral research full time, or preparing research for publication for eight consecutive weeks. Open to applicants in all fields of study. Scholars engaged in science, technology, engineering, and math fields or researching gender issues are especially encouraged to apply.

- **Deadline:** November 1, 2020
- **Citizenship:** U.S. citizen or permanent resident

**American Association of University Women (AAUW) Career Development Grants**
AAUW’s Career Development Grants provide assistance to women who, through additional higher education, technical training, or participation in professional development institutes, are making career changes, seeking to advance in current careers, or reentering the workforce. Primary consideration is given to women of color and women pursuing credentials in nontraditional fields. Grants provide support for coursework toward degree programs other than a doctorate or for specialized training in technical or professional fields.

- **Deadline:** November 15, 2020
- **Citizenship:** U.S. citizen or permanent resident

EPA People, Prosperity and the Planet (P3) Student Design Competition

EPA’s P3 - People, Prosperity and the Planet – Program is a unique competition that is open to teams of college/university students working to design solutions for a sustainable future. P3 offers students hands-on experience that brings their classroom learning to life, while also allowing them to create tangible changes in their communities. This annual, two-phased research grants program challenges students to research, develop, and design innovative projects that address real world challenges involving all areas of environmental protection and public health.

- **Deadline**: November 1, 2020
- **Citizenship**: Applicants (both student team members and faculty advisors) must be citizens of the United States or its territories or be lawfully admitted to the United States.
Faculty for the Future
The Faculty for the Future grant program seeks to positively impact gender balance in science disciplines by reinforcing the presence and qualifications of women university teachers in developing and emerging economies. We firmly believe that better gender balance at the faculty level will encourage more women to study STEM disciplines.

- **Deadline:** Nov 9, 2020
- **Citizenship:** female citizen of a developing country or emerging economy

Dynamic Language Infrastructure-Doctoral Dissertation Research Improvement Grants
This program supports doctoral research focusing on building dynamic language infrastructure (DLI). Developing language infrastructure includes the documentation and preservations of languages in ways that articulate or advance linguistic theory, as well as the use of digitization techniques and novel computational methods that support and advance the study of language. Special emphasis is given to human languages that are endangered, i.e., understudied and at risk of falling out of use. The program supports the development of the next generation of researchers that contribute to language data management and archiving, and to the analysis of these archives to advance language infrastructure. Funding in this solicitation is in the form of doctoral dissertation research improvement grants (DDRIs) for up to 24 months and this solicitation addresses the preparation and evaluation of proposals for DDRI proposals.

U.S. Department of Energy's Office of Science Graduate Student Research (SCGSR) program

The goal of the Office of Science Graduate Student Research (SCGSR) program is to prepare graduate students for science, technology, engineering, or mathematics (STEM) careers critically important to the DOE Office of Science mission, by providing graduate thesis research opportunities at DOE laboratories. The SCGSR program provides supplemental awards to outstanding U.S. graduate students to pursue part of their graduate thesis research at a DOE laboratory/facility in areas that address scientific challenges central to the Office of Science mission. The research opportunity is expected to advance the graduate students’ overall doctoral thesis while providing access to the expertise, resources, and capabilities available at the DOE laboratories/facilities. There are 4 new transdisciplinary research areas for encouraging graduate training activities at the convergence of multiple disciplines and communities, including Microelectronics, Data Science, Conservation Laws and Symmetries, and Accelerator Science. Applications in these areas are strongly encouraged.

### University of Michigan President’s Postdoctoral Fellowship Program in STEM

The University of Michigan offers postdoctoral research fellowships in science, technology, engineering, or mathematics (STEM), economics, and political science fields, coupled with faculty mentoring, professional development and academic networking opportunities. The University of Michigan views these postdoctoral fellowships as providing an exceptional opportunity to recruit potential new faculty to the University by offering the possibility of either a postdoc alone or a combined postdoc and tenure track faculty appointment. The University seeks applicants whose research, teaching and service will contribute to diversity and equal opportunity in higher education. The program is particularly interested in scholars with the potential to bring to their academic careers the critical perspective that comes from their non-traditional educational background or understanding of the experiences of groups historically underrepresented in higher education.

- **Deadline:** November 1, 2020
- **Citizenship:** Successful applicants must present documents demonstrating that they are legally authorized to work in the United States without restrictions or limitations.
