Announcements

Graduate Writing Lab
The Graduate Writing Lab (GWL) offers free consultations by appointment with trained and certified peer tutors. Our graduate tutors will discuss any kind of writing at any point in the process. During each session, tutors get acquainted with the student’s writing, answer questions, identify patterns, make recommendations, and help the student come up with a plan for moving forward. Tutors can serve as a second set of eyes on personal statements, application essays, lab reports, theses, dissertations, resumes, and even professional emails.
Website: [https://gradcenter.arizona.edu/graduate-writing-lab](https://gradcenter.arizona.edu/graduate-writing-lab)

Writing Efficiency Sessions
Do you want to be a more productive writer? If you are working on an intensive writing project like a dissertation, thesis, journal article, or grant proposal and you would like to increase your writing productivity, consider joining Writing Efficiency Sessions.
- Mondays, 11 AM to 1 PM
- Tuesdays, 7 PM to 9 PM
• Wednesdays, 10AM to 12 PM
• Thursdays, 12 PM to 2 PM
More information: https://gradcenter.arizona.edu/writing-support/writing-efficiency-sessions

**NIH F30/31 Resubmission Program**
If you have submitted an NIH F30 or F31 application and plan to resubmit for the December 8, 2021 deadline, we can help. We will meet with you to discuss your Summary Statement and then help you make a plan for resubmission. On October 19, you can submit your Introduction to Resubmission and 1 - 2 other documents for feedback. This is a new program with limited space.

**GENERAL FELLOWSHIP OPPORTUNITIES**

**American Association of University Women (AAUW) American Dissertation Fellowships**
American Fellowships support women scholars completing doctoral dissertations, conducting postdoctoral research, or finishing research for publication. The purpose of the Dissertation Fellowship is to offset a scholar’s living expenses while she completes her dissertation. The fellowship must be used for the final year of writing the dissertation.

- **Deadline:** November 1, 2021
- **Citizenship:** U.S. citizen or permanent resident
- **Website:** https://www.aauw.org/resources/programs/fellowships-grants/current-opportunities/american/dissertation-fellowships/

**American Association of University Women (AAUW) Career Development Grants**
AAUW’s Career Development Grants provide assistance to women who, through additional higher education, technical training, or participation in professional development institutes, are making career changes, seeking to advance in current careers, or reentering the workforce. Primary consideration is given to women of color and women pursuing credentials in nontraditional fields. Grants provide support for coursework toward degree programs other than a doctorate or for specialized training in technical or professional fields.

- **Deadline:** November 15, 2021
- **Citizenship:** U.S. citizen or permanent resident
- **Website:** https://www.aauw.org/resources/programs/fellowships-grants/current-opportunities/career-development/

**American Association of University Women (AAUW) International Fellowships**
International Fellowships are awarded for full-time study or research in the United States to women who are not U.S. citizens or permanent residents. Both graduate and postgraduate studies at accredited U.S. institutions are supported.

- **Deadline**: November 15, 2021
- **Citizenship**: not U.S.A.
- **Website**: [https://www.aauw.org/resources/programs/fellowships-grants/current-opportunities/international/](https://www.aauw.org/resources/programs/fellowships-grants/current-opportunities/international/)

**American-Scandinavian Fellowship and Grants to Study in Scandinavia**
The American-Scandinavian Foundation (ASF) offers fellowships (up to $23,000) and grants (up to $5,000) to individuals to pursue research, study or creative arts projects in one or more Scandinavian country for up to one year. Grants are considered suitable for post-graduate scholars, professionals, and candidates in the arts to carry out research or study visits of one to three months duration.

- **Deadline**: November 1
- **Citizenship**: United States citizens or permanent residents

**Boren Graduate Fellowship**
Boren Fellowships, an initiative of the National Security Education Program, provide unique funding opportunities for U.S. graduate students to study less commonly taught languages in world regions critical to U.S. interests, and underrepresented in study abroad, including Africa, Asia, Central and Eastern Europe, Eurasia, Latin America, and the Middle East. The countries of Western Europe, Canada, Australia, and New Zealand are excluded. Boren Fellows represent a vital pool of highly motivated individuals who wish to work in the federal national security arena. In exchange for funding, Boren Fellows commit to working in the federal government for at least one year after graduation.

- **Deadline**: January 26, 2022
- **Citizenship**: U.S. citizens

EPA People, Prosperity and the Planet (P3) Student Design Competition
The U.S. Environmental Protection Agency (EPA), as part of its People, Prosperity and the Planet (P3) Award Program – is seeking applications proposing to research, develop, design, and demonstrate solutions to real world challenges. The P3 competition highlights the use of scientific principles in creating innovative technology-based projects that achieve the mutual goals of improved quality of life, economic prosperity and environmental protection. The EPA offers the P3 competition in response to the environmental and public health challenges in the United States, including those in small, rural, tribal and/or underserved communities. Please see the P3 Student Design Competition [website](https://www.epa.gov/p3) for more details about this program. Proposed projects must embody the P3 approach, which is that they have the intention and capability to
simultaneously improve the quality of people’s lives, provide economic benefits and protect the environment.

- **Deadline:** October 27, 2021
- **Citizenship:** Unrestricted

**Health Equity Internship Program**
The Health Equity Internship Program was created to support the diversification of the public health and health-related workforce. Like several areas of health, the public health nutrition workforce also needs assistance with diversification and recruiting a new generation of nutritional professionals. Since 2002, the internship program has prepared nearly 1,000 students with practical skills in the Essentials of Public Health Services and Core Competencies of Health Education and Promotion. Federal, regional, state and local health agencies provide real-world work experience to students for 12-weeks to complete health equity projects in the areas of HIV, Cancer, Obesity, Cardiovascular Disease, Diabetes, Lupus, Nutrition, Mental Health, Program Planning, Health Policy, Tobacco, Injury/Violence Prevention, Aging, and more.

- **Deadline:** October 30
- **Citizenship:** Unrestricted

**Presidential Management Fellowship**

PMF Program is a flagship leadership development program at the entry level for advanced degree candidates. The PMF Program inculcates a lasting bond as well as a spirit of public service, ultimately encouraging and leading to a career in the government. Your two-year appointment will provide a fast-paced opportunity to gain experience and develop your talents. You will be challenged with opportunities to flourish into a problem solver, strategic thinker and future leader. In addition to working at a single Federal agency, you may have the option to participate in a rotational opportunity at another agency. This highly selective, rigorous leadership program recruits recent graduates and current graduate students (who will complete an advanced degree by August 31st of the following year), particularly in (but not limited to) the areas of Accounting/Finance, Computer Science, Economics, Engineering, Foreign Policy/International Affairs, Environmental Science, Health/Medical Science, IT, Public Administration/Public Policy, and Public Health.

- **Deadline:** September 28, 2021 (opens) – October 12, 2021 12 pm ET (closes)
- **Citizenship:** Mostly U.S. citizenship with a few exceptions (but must be eligible to work under U.S. Immigration laws)

**Studienstiftung des Abgeordnetenhauses von Berlin (for study in Berlin)**

The Studienstiftung des Abgeordnetenhauses von Berlin sponsors a scholarship program for students and young scholars of all fields from France, Great Britain, the United States, Russia and other successor states of the former Soviet Union. Applicants should work on projects that require access to research facilities in Berlin. The scholarships are awarded according to various criteria, including academic merit and civic engagement. During their 10-month stay grant winners will not only experience their research areas from an international perspective, but also the political, cultural and social dimensions of public life in Berlin.

- **Deadline:** December 15, 2021
Fellowships in Arts, Humanities, and Social Sciences

Border Lab Graduate Fellowships
The Border Lab Graduate Fellowship program aims to support current University of Arizona graduate students through community building, professional development, and funding for new or ongoing interdisciplinary, border-focused projects. As a program of the larger Border Lab initiative, the Border Lab Fellowship program will contribute to the university-wide effort to make the University of Arizona (UArizona) a global leader in the field of border studies through the creation of new knowledge and transnational collaborations. The Border Lab Graduate Fellowship program offers one-time awards of up to $10,000 for individual applicants. Fellows will be required to participate in mentorship and academic development programs throughout the first year (Spring 2022 – Fall 2022). Fellows will be expected to complete their projects during the final semester of the grant period (Spring 2023).

**Dynamic Language Infrastructure-Doctoral Dissertation Research Improvement Grants**
This program supports doctoral research focusing on building dynamic language infrastructure (DLI). Developing language infrastructure includes the documentation and preservations of languages in ways that articulate or advance linguistic theory, as well as the use of digitization techniques and novel computational methods that support and advance the study of language. Special emphasis is given to human languages that are endangered, i.e., understudied and at risk of falling out of use. The program supports the development of the next generation of researchers that contribute to language data management and archiving, and to the analysis of these archives to advance language infrastructure. Funding in this solicitation is in the form of doctoral dissertation research improvement grants (DDRIs) for up to 24 months and this solicitation addresses the preparation and evaluation of proposals for DDRI proposals.
Fort Union National Monument Artist in Residence
The National Parks Arts Foundation (NPAF) works directly with select artists and The National Park Service (and their affiliates) to create unique Artist in Residency programs within the wonders of the National Parks. Any artist working in any medium, digital or analog, including writing of any type, and performance art of any type are accepted. Nestled against the far tip of the Sangre de Cristo Range and facing the great plains, Fort Union National Monument is one of New Mexico’s legendary and historic frontier army posts, located in Mora County near Watrous, NM, was the hub of commerce, national defense, and migration at the final stretch of the Santa Fe Trail. Artists receive housing, $1000 stipend, and have their work presented at a nearby venue.

History of Art: Institutional Fellowships
Advanced training in European art history requires direct exposure to the object of study, prolonged access to key information resources such as libraries and photographic archives, the development of professional relationships with colleagues abroad, and sustained immersion in European cultures. These related needs are often best satisfied by extended engagement with a European art research center. The Kress History of Art: Institutional Fellowships are intended to provide promising young art historians with the opportunity to experience just this kind of immersion.

- **Deadline:** November 1 (opens) - November 30, 2021 before 5:00pm EST
- **Citizenship:** Unrestricted

Humane Studies Fellowship
Humane Studies Fellows not only gain financial aid, but also connect with IHS and our network of scholars working to advance classical liberal ideas in the academy. This includes access to academic advising and invitations to our career development seminars, research workshops, discussion colloquia, and other networking events. Accepted Fellows research a broad range of topics from migration and 18th-century property rights to bioethics and environmental policy. IHS welcomes scholars working in unique and diverse research areas. We are looking for anyone doing exciting classical liberal research in the humanities and social sciences.

Association for Computing Machinery Doctoral Dissertation Award
ACM established the Doctoral Dissertation Award program to recognize and encourage superior research and writing by doctoral candidates in computer science and engineering. The award is presented each June at the ACM Awards Banquet and is accompanied by a prize of $20,000 plus travel expenses to the banquet. As of January 1, 2014 all winning dissertations are published exclusively in print and electronic formats as part of the ACM Books Series, which includes distribution through the ACM Digital Library. Honorable Mention(s) may also be awarded, with a prize of $10,000 shared among recipients.

DOE Office of Science Graduate Student Research (SCGSR) Program
The goal of the Office of Science Graduate Student Research (SCGSR) program is to prepare graduate students for science, technology, engineering, or mathematics (STEM) careers critically important to the DOE Office of Science mission, by providing graduate thesis research opportunities at DOE laboratories. The SCGSR program provides supplemental awards to outstanding U.S. graduate students to pursue part of their graduate thesis research at a DOE laboratory in areas that address scientific challenges central to the Office of Science mission. The research opportunity is expected to advance the graduate students’ overall doctoral thesis while providing access to the expertise, resources, and capabilities available at the DOE laboratories.

- **Deadline:** November 10, 2021
- **Citizenship:** U.S. Citizen or permanent resident
Graduate Fellowships for Science, Technology, Engineering, and Mathematics Diversity

The Graduate Fellowships for Science, Technology, Engineering, and Mathematics Diversity is a partnership between government agencies and laboratories, industry, and higher education. Their goal is to increase the number of American citizens with graduate degrees in the physical sciences and related engineering fields, emphasizing recruitment of a diverse applicant pool including women and minorities. The Graduate Fellowship is unique in being: open to all American citizens; lasting for up to six years; providing a $20,000 annual stipend; covering tuition; allowing a fellow also to hold a research or teaching assistantship; including one or two paid summer internships with a government agency; providing a mentor and the opportunity for a lasting relationship with the sponsor.

- **Deadline**: December 15, 2021 (opens late August)
- **Citizenship**: U.S. Citizen

Hertz Fellowships

The Foundation supports graduate students working towards the Ph.D. degree in the applied physical, biological, and engineering sciences. These fields include applied physical and biological sciences, mathematics, or engineering. Applicants must be willing to morally commit to make their skills available to the United States in time of national emergency.

- **Deadline**: October 29, 2021
- **Citizenship**: U.S. citizen or permanent residents of the United States of America

Human-Environmental and Geographical Sciences Program Doctoral Dissertation Research Improvement Award

The objective of the Human-Environment and Geographical Sciences Program is to support basic scientific research about the nature, causes and/or consequences of the spatial distribution of human activity and/or environmental processes across a range of scales. Recognizing the breadth of the field's contributions to science, the HEGS Program welcomes proposals for empirically grounded, theoretically engaged, and methodologically sophisticated, generalizable research in all sub-fields of geographical and spatial sciences. Because the National Science Foundation's mandate is to support basic scientific research, the NSF Human-Environment and Geographical Sciences program does not fund research that takes as its primary goal humanistic understanding or applied research. HEGS supported projects are expected to yield results that will enhance, expand, and transform fundamental geographical theory and methods, and that will have positive broader impacts that benefit society.

- **Deadline**: Proposals Accepted Anytime
- **Citizenship**: Unspecified
**Innovation in Buildings Graduate Research Fellowship**
The Innovation in Buildings (IBUILD) Graduate Research Fellowship, managed by Oak Ridge National Laboratory, will strengthen the pool of well-trained, diverse MS and PhD scholars who are equipped for research-intensive building technologies careers across all sectors. IBUILD Fellows will receive research and educational support to conduct innovative research at their home institution in an area with demonstrated relevance to building energy efficiency. In addition to funding high quality research, the fellowship will provide professional development, mentoring, networking, and internship opportunities.
- *Deadline:* December 1, 2021 5pm ET
- *Citizenship:* U.S. Citizen or Lawful Permanent Resident

**Link Foundation Energy Fellowship Program**
To foster education and innovation in the area of societal production and utilization of energy, the Link Foundation invites applications for two-year fellowships for students working toward a Ph.D. degree.

**Mickey Leland Energy Fellowship (MLEF) Program**
The MLEF Program provides students with educational opportunities to gain real-world, hands-on research experience with the Department of Energy’s (DOE) Office of Fossil Energy. The MLEF program was created in 1995 with the goal of improving opportunities for under-represented and minority students in science, technology, engineering, and mathematics (STEM) fields. As a MLEF participant, you will train under the mentorship of scientists and engineers while working on mission-focused research projects. During the 10-week appointment, you will receive a weekly stipend, and may be eligible for housing and travel allowances. You will also gain insight into how the Department of Energy is working to meet the energy challenges of the future.

Naval Research Enterprise Internship Program
The Naval Research Enterprise Internship Program (NREIP) provides an opportunity for college students to participate in research at a Department of Navy (DoN) laboratory during the summer. This ten-week intern program is designed to provide opportunities for undergraduate and graduate students to participate in research, under the guidance of an appropriate research mentor, at a participating Navy laboratory. The goals of NREIP are to encourage participating college students to pursue science and engineering careers, to further education via mentoring by laboratory personnel and
their participation in research, and to make them aware of DoN research and technology efforts, which can lead to employment within the DoN.

- Deadline: November 1, 2021 11:59 PM ET
- Citizenship: Most labs only accept U.S. citizens
