Dear Graduate Students,

Even in this uncertain time, funding opportunities exist. We have a sampling listed below. Our next GradFunding newsletter will be in August. As you are planning applications for the fall, you might want to have a look at our big list of favorite fellowships:
https://grad.arizona.edu/ofce/gradfunding-opportunities-newsletter

Congratulations to all who have graduated! For those who are finishing your graduate work and want to get off this list, please send me an email stating, “remove from GradFunding list.”

Remember, the summer is the best time to work on fellowship applications and we can help through our Summer Fellowship Application Development Program (https://grad.arizona.edu/ofce/summer-fellowship-application-development-program). Deadline approaching soon.

Shelley and Alex

General Funding Opportunities

American Institute of Indian Studies – Dissertation Research Fellowships and Performing/Creative Arts Fellowships
For more than 50 years, the American Institute of Indian Studies has provided funding to pre- and post-doctoral scholars and artists in pursuit of knowledge about India. Junior Research Fellowships are available to doctoral candidates at U.S. universities in all fields of study. These grants are specifically designed to enable doctoral candidates to pursue their dissertation research in India. Junior Research Fellows establish formal affiliation with Indian universities and Indian research supervisors. Awards are available for up to 11 months. Senior Performing and Creative Arts Fellowships are available to accomplished practitioners of the performing arts of India and creative artists who demonstrate that study in India would enhance their skills, develop their capabilities to teach or perform in the U.S., enhance American involvement with India’s artistic traditions or strengthen their links with peers in India.

- **Citizenship:** Unrestricted
- **Deadline:** November 15, 2020

### Fulbright U.S. Student Program
The Fulbright U.S. Student Program offers opportunities for students and young professionals to undertake international graduate study, advanced research, university teaching, and primary and secondary school teaching worldwide. The program currently awards approximately 1,900 grants annually in all fields of study, to go to more than 140 countries worldwide.

- **Citizenship:** U.S. citizen
- **Campus Deadline:** Sept 14, 2020 (5 p.m.)
- **Website:** [http://us.fulbrightonline.org/about/types-of-grants](http://us.fulbrightonline.org/about/types-of-grants)

### National Geographic Society Grant Opportunities
The National Geographic Society currently offers three types of grant applications—Early Career, Exploration, and Requests for Proposals. All proposed projects should be bold, innovative, and potentially transformative and have a primary focus in conservation, education, research, storytelling, or technology. Projects should also align to one of our three focus areas.

- **Citizenship:** Unrestricted
- **Deadline:** See website
- **Website:** [https://www.nationalgeographic.org/grants/grant-opportunities/](https://www.nationalgeographic.org/grants/grant-opportunities/)

### National Institute for Transportation and Communities Diversity Grants
NITC has funds available to support underrepresented undergraduate and graduate students participating in transportation research. The goal of the program is to expose and encourage women and people of color to transportation research and job training opportunities. PIs can request up to $5,000 for an undergraduate student or $7,500 for a graduate student.

- **Citizenship:** Unspecified
- **Deadline:** Rolling
- **Website:** [http://nitc.trec.pdx.edu/funding/diversity-grants](http://nitc.trec.pdx.edu/funding/diversity-grants)

### National Institute for Transportation and Communities Dissertation Grants
Doctoral Dissertation Research Fellowships of up to $15,000 to cover expenses for the recipient while working on a dissertation consistent with NITC's theme of:
Improving the mobility of people and goods to build strong communities.

- **Citizenship**: U.S. citizens or permanent residents

### Presidential Management Fellows (PMF) Program

The PMF Program is a leadership training ground, whether prospective students want a career in public service or elsewhere. Based on current PMF Program regulations and policies, eligible individuals apply and participate in a rigorous application and assessment process. Those ultimately selected as Finalists seek appointments as PMFs (Fellows). PMFs perform valuable service to the American people while jump-starting their careers, and get full salary and benefits as well as challenging assignments, formal professional training, rotations to other agencies, feedback on their work, plus an opportunity to make government run more efficiently. The two-year fellowship is a full-time, paid appointment.

- **Citizenship**: See website
- **Application period**: Wednesday, September 30 - Wednesday, October 14, 2020

FUNDING OPPORTUNITIES IN
SCIENCE & ENGINEERING

ABC Humane Wildlife Academic Scholarship – Women In STEM
As a woman-owned corporation operating in a largely male field, we understand the remarkable impact women can have. We want to pave the way for other women pursuing their dreams in the scientific world, which is why ABC Wildlife is introducing a scholarship designed to increase the number of women studying and influencing the future of science, including technology, engineering and math.

GEM Fellowship Program
The National GEM Consortium provides three Fellowship Program. The MS Engineering Fellowship Program provides practical engineering summer work experiences through an employer sponsor and a portable academic year fellowship. The Ph.D. Engineering Fellowships offer doctoral fellowships to underrepresented minority students who have either completed, are currently enrolled in a master’s in engineering program, or received admittance into a PhD program. The Ph.D. Science Fellowship aims to increase the number of minority students who pursue doctoral degrees in the natural science disciplines — chemistry, physics, earth sciences, mathematics, biological sciences, and computer science.

Tylenol Future Care Scholarship
The Tylenol Scholarship Fund currently awards $250,000 in scholarships each year to students pursuing careers in healthcare around the world and in the United States. The makers of Tylenol award 10 scholarships worth $10,000 each, followed by 30 scholarships worth $5,000 each. An additional 150 scholarships worth $1,000 are reserved for students who participate in community service activities. Applicants will be judged on leadership qualities and academic performance.

- **Citizenship**: USA, Puerto Rico, or District of Columbia resident
- **Deadline**: Typically June 30 each year

U.S. Department of Energy Office of Science Graduate Student Research (SCGSR)
The goal of the Office of Science Graduate Student Research (SCGSR) program is to prepare graduate students for science, technology, engineering, or mathematics (STEM) careers critically important to the DOE Office of Science mission, by providing graduate thesis research opportunities at DOE laboratories. The SCGSR program provides supplemental awards to outstanding U.S. graduate students to pursue part of their graduate thesis research at a DOE laboratory/facility in areas that address scientific challenges central to the Office of Science mission. We strongly encourage applications in 4 new transdisciplinary research areas for encouraging graduate training activities at the convergence of multiple disciplines and communities, including Microelectronics, Data Science, Fundamental Symmetries, and Accelerator Science.

- **Citizenship**: U.S. citizen or permanent resident

**POSTDOCTORAL OPPORTUNITIES**

AAAS Science & Technology Policy Fellowships (STPF)
AAAS Science & Technology Policy Fellowships (STPF) provide opportunities to outstanding scientists and engineers to learn first-hand about policy-making while contributing their knowledge and analytical skills to the federal policy-making process. Fellows serve yearlong assignments in the executive, legislative, and judicial branches of the federal government in Washington. Applicants must hold a doctoral level degree (Ph.D., Sc.D., M.D., DVM, EdD, etc.*), in any of the following: Medical and Health
American Institute of Indian Studies – Senior Research Fellowships
Senior Research Fellowships are available to scholars with a PhD or its equivalent. These grants are designed to enable scholars who specialize in South Asia to pursue further research in India and to establish formal affiliation with an Indian institution. Short-term awards are available for up to four months. Long-term awards are available for six to nine months. A limited number of humanists will be granted fellowships paid in dollars funded by the National Endowment for the Humanities.

CDC Epidemic Intelligence Service Officers
EIS officers are selected from among highly qualified applicants drawn to public health service and interested in practicing applied epidemiology. EIS officers may be assigned to work in the areas of infectious diseases, chronic diseases, injury prevention, environmental health, or occupational health, either at CDC, or at another federal agency, state, or local health department. Qualifying degree must have background in public health or one of its related disciplines (e.g., epidemiology, biostatistics, health informatics, health policy and services, behavioral health, environmental or occupational health, injury prevention, or nutritional sciences)

- Citizenship: U.S. citizen and permanent residents
- Deadline: June 12, 2020
- Website: https://www.cdc.gov/eis/application/index.html

Fulbright Scholar Program
The Fulbright Scholar Program offers teaching, research or combination teaching/research awards in over 125 countries. Opportunities are available for college and university faculty and administrators as well as for professionals, artists, journalists, scientists, lawyers, independent scholars and many others. Interested faculty and professionals are encouraged to learn more about these opportunities, and hundreds of others, by visiting the Catalog of Awards.

- Citizenship: U.S. citizen

Human Frontier Science Program (HFSP) Postdoctoral Fellowships
HFSP postdoctoral fellowships encourage early career scientists to broaden their research skills by moving into new areas for study while working in a new country. HFSP fellowships are for three years. Fellows may choose to stay for up to three years in the host country or use the last year of their fellowship to return to their home country or to move to another HFSPO member country. Long-Term Fellowships (LTF) are for applicants with a Ph.D. in a biological discipline, who will broaden their expertise by proposing a project in the life sciences which is significantly different from their previous Ph.D. or postdoctoral work. Cross-Disciplinary Fellowships (CDF) are for applicants with a Ph.D. from outside the life sciences (e.g. in physics, chemistry, mathematics, engineering or computer sciences), who have had limited exposure to biology during their previous training.

• Citizenship: Unrestricted
• Deadline: August 2020 (check website in May or June for application guidelines)
